This is sarcasm. It comes from [The Babylon Bee](#), and when I first came across the article I almost "shit my pants" it was so funny. If you are unaware of where the humor is in this, I would suggest you watch the movie "[Aliens](#)". It will put this meme in better context than I ever can explain.

All credit to the original posters.

Yeah. The United States is really, really messed up now. The government cannot function. Corporate big-wigs are pushing radical Marxism and a progressive socialist ideal that makes Pol-Pot look like a teeny-bopper, and hard core criminals are immune from justice. It's all a massive cluster-fuck. Experts Now Recommend Nuking Everything From Orbit.

Experts Now Recommend Nuking Everything From Orbit – July 23rd, 2019

WORLD—In the wake of a string of increasingly bizarre antics from a rapidly declining western civilization, experts recommended nuking everything from orbit.

Should world leaders approve the plan, the nukes will be launched sometime in the next week, weather permitting.

“Our new strategy for eradicating the potential for more of the absolute insanity as we have seen over the past weeks and months is to just wipe the whole thing out,” Defense Secretary Mark Esper declared in a press conference at the Pentagon.

“We explored plans ranging from releasing biological weapons into public areas around the world to just sinking everyone into the sea. But based on computer simulations, a barrage of orbital nukes from our defense satellites is the most effective plan for just wiping everything out in order to let someone else have a shot.”

Esper went on to state the first barrage of nukes would include some 325 different ICBMs targeted at the world’s most densely populated areas, while a second salvo would target more rural areas to wipe out any survivors.

“It’s the only way to be sure.”

SHTF Related Index

This is a collection of my posts related to prepping, SHTF (Shit Hit The Fan), CWII (American Civil War 2), Fourth Turning ([Strauss-Howe generational theory](#)) and other posts related to the very sad and sorry tatters that America is today. Actually, I am a little stunned that I have written so much about these matters. But America today is very ill and there are things that really should be said.

Here are the posts.

SHTF and Related Index

The Tale of the Killdozer.

This is the story of the "little guy" who was pushed around, beaten up, and drove out of town by a small but very powerful fiefdom, and how he exerted revenge. For he went Macgyver on their asses. He took a large bulldozer and turned it into a tank and went on a rampage with it.

The use of "technicals" by military forces to round up citizenry as part of genocide. This article discusses the role that armed pickup trucks have in modern contemporaneous warfare. These vehicles are known as "technicals". They are often equipped with heavy machine guns and are used to control the civilian population. They are NOT used to fight against militarized forces.

The Climax of the Fourth Turning - 2025.

This is a short warning from the great book The Fourth Turning by Howe and Strauss. For they, using the theory of generational cycles (or turnings), predict the same RESET to reoccur in our near future; 2025 to be exact. Here we look at this issue in detail

Fourth Turning Crisis Scenarios for the 2025 event; a scary look into the future. According to the "Fourth Turning", the year of 2025 will be the point in time where a major "turning point" or crisis will occur. Historically that means a serious war on American soil. As 100% of the previous fourth turnings were serious wars that occurred on American soil. This article embraces this historical fact and extrapolates possible scenarios out from it. These are ugly scenarios and they all involve nuclear war on American soil.

Why are Americans so Angry? This post goes into the historical details of how the United States got into the state that it is today. We trace back the roots of all the symptoms of cancer back one hundred years ago to President Wilson and his progressive ideals that would set up an "enlightened despot", or in another term; a King and serf relationship. We discuss how it happened and why Americans are very angry at their government for allowing this to occur.

The evolution of America and China; they both no longer resemble their stereotypes. America has evolved. China has changed. But the mainstream media reporting has not. This post discusses how both China and the United States have changed. We look at how they have migrated away from the form of government they were first established as. We look at how they both started, how they both changed, and where they both are today.

The Grim Future for America.

Here we look at the current situation in America; social, and economic, and compare it with other similar events that has happened in the recorded historical past. By all accounts, under all situations, the future for America describes a time of great (tumultuous) change. Change that will be "grim" for large swaths of the American population.

Is it clear enough for you? It's time to hunker down, or get ready to rumble. Donald Trump has been in office for three years and there hasn't been one single criminal referral for treason related to the oligarchy and the progressive cabal. Perhaps it is time to take a serious reappraisal of the current situation in the United States in light of the past, and our very own personal futures. It's rather frightening as SHTF and CWII will need to occur to reset the American society.

Democrat Busybodies and the Destruction of Freedom

Wouldn't life be wonderful if you could just be left alone and live your life in peace? I think so. The founders of the United States thought so, however there is an army of busybodies who disagree. They have this vision of utopia where everyone listens to their commands.

The r/K Selection Theory applied to American Politics

The r/K theory is a pretty well-known theory on animal behavior. It simply states that animals behave as they need to based on the scarcity of resources. Here, we argue that it can be applied to why humans follow different political philosophies. Especially in American politics.

Pictures of people who were disarmed by their government and how a gun-free utopia manifested for them. Here are some pictures of people who were disarmed by their government and how a gun-free utopia manifested for them. We use images and stories from history. People relate how their utopia in the progressive NWO and utopia that is promised to them by their government came true and what they experienced. We learn about the wonderful happiness and utopia that everyone participated to freely, equally and with liberty. We learn that the key to this utopia is the disarmament of the population.

The Many Things that Democrats want to Ban

This is a running list of the many things that American Democrats want to ban, have banned, or are trying to ban. You know, a ban of anything is a restriction on freedom. That is not what America was founded upon. Yet, here we are today. Everyday is a new ban, and loss of freedom.

This is what happened to the "Preppers" during previous genocides and periods of national turmoil. Here we look at the different categories of prepping for a societal (as opposed to a natural) disaster. We look at historical examples, and compare them to determine which one might be best for Americans to consider. Prepping for societal change is a necessary part of familial survival.

Universal Background Checks; When you need to violate the 4th amendment to use the 2nd amendment.

Democrats today want to tie "universal background checks" to the utilization of a 2nd amendment right. This is a direct and overt violation of the fourth amendment. The mere fact that this is being considered without opposition is a sign just how dangerously close the USA is towards total collapse. Read your history. It's close. It's very very close.

What the Progressive Liberals have in store for Conservatives

The progressive socialists, who now go under the name of "Liberals", have plans on the consolidation of their power and control. This is what their ultimate plans are. It does not bode well for traditional American values, Rights, the Constitution, or history. It's going to be a dangerous time.

What the Progressive Socialist Liberals have in store for Conservatives (part 2)

When the American second civil war occurs (CWII), it will be an ideological genocide. It will follow the identical patterns that have happened in all of the genocides of the twentieth century. How do we know? Because the identical pre-genocide preparations have already been put in place.

What the Progressive Socialist Liberals have in store for

Conservatives (part 3) Everything is currently in place for a full-scale genocide against "the privileged white", the "rural deplorables", and the "crackers who are racist and love slavery". You know who they are targeting. It is cultivated, and intentional to drum up hatred and zeal to "transform America".

What the Progressive Socialist Liberals have in store for Conservatives (part 4)

The Rwandan genocide was initiated, and put into motion, by the rich urban elite inside the cities. They used the Civil War as an opportunity to "cleanse" the nation of thought contrary to their ideology.

What the Progressive Socialist Liberals have in store for

Conservatives (part 5) When SHTF, and CWII occurs scenes like this will be common place. Young armed youth will travel forth from the cities in new trucks right off the sales lot, and they will attack the people in the smaller cities and rural areas. They might even have technicals installed on brand new trucks.

What the Progressive Socialist Liberals have in store for Conservatives (part 6)

We conclude this study on history and what could very well happen in the United States, by looking at what happens to girls, and women during these contentious times of societal upset. We review the role of the Bill of Rights in protection.

Calexit and the American Civil War

This is a pretty detailed look at the causes of the American civil war, and why it wasn't about slavery. We look at the rewriting of history by the internet, and the efforts that President Obama took to keep California intact so that the Democrats could maintain political power and control.

The Warning Signs that Government Collapse is Imminent

All nations go through cycles. They do so, and when they mature they evolve into other governmental forms. The United States is long overdue for a change; a reset. Now, while this will occur, it is unknown how severe it would be. Here are my thoughts on this issue and some warnings.

The Line in the Sand – Now What?

It's the same story. Just vote for us, and we will correct everything. Yet, nothing ever happens. You know, boys and girls, this old "song and dance" can only be maintained for so long. Eventually it will fracture, and people will no longer rely on elections to institute change...

The importance of having a second passport.

So President Trump is building a wall to protect Americans. Hum. Where have I heard that before? Oh yes, in Germany right when they were making the wall that separated Berlin. Walls serve two purposes; they keep people out, but they also keep people in. Be careful what you wish for.

How to Build a Gallows and a Hangman's Noose

The United States is entering a period of strife. There will be violence. There will be discord and discomfort. It will be an ugly time. There will be winners and losers. It will be painful for the losers, and the victor will need build a gallows. This is how to do so and why it is needed.

Some things that need to be changed for America to be the "Land of the Free" again.

There are many things that a person can do to improve themselves. But, what about a nation? What about the United States? Here is a handful of suggestions that I would like to propose to help America become whole again.

What would the founders think of America today?

Here we discuss what the founders of the United States would say about America today. It is a fun, but disturbing musing about the severe differences from how America operates as opposed to how it is supposed to operate according to the Constitution.

The Forgotten Ninth Amendment to the Bill of Rights; Why it is More Important Than Ever.

The Ninth Amendment to the United States Constitution simply says that citizens have so many Rights, that they are too long and too numerous to list in one document. Instead, they created the Ninth Amendment which pretty much says "Americans have the ten Rights listed in the Bill of Rights and all other Rights as well also."

How they get away with it

Ten years ago, Bankers committed fraud in Wall Street that just about devastated the nation. Earlier, we had the S&L fiasco, the nightmare with penny stocks, and now the grand wholesale treason with the selling of Top Secrets to a foreign nation. This is how they get away with it.

What is Snopes.com and can it be Trusted?

Snopes is a "fact check" website that is fully funded by the oligarchy. It is used to "shout down" any narratives that does not support the rich and powerful, and politically connected globally. Here we discuss the organization, who they are and what they represent.

Today America Taxes it's Expats without Representation.

This is a sad state of affairs. Americans who reside outside of the United States now have to pay American taxes, even though they have no representation in Congress. As I recall this was one of the reasons for the American cry for independence in 1776.

The Hazing of New Employees – A Lost Tradition

Up until the 1980's all companies would haze new employees. Today, we live in a world regulated by the government and policed by Human Resources. We forget how things used to be just a handful of decades ago. Here is my narrative when I started to work.

Moma's Chicken Soup - A Parable About Modern America

This is a parable about modern America. It takes place around a global staple; the humble chicken soup. It compares American political news to that of making chicken soup, and utilizes many of the same catchphrases and memes in the process. It is a tongue in cheek look at America today.

A Wish List of Favorite Firearms

This is a personal list of many favorite firearms that I would like to own. There are various reasons for the particular weapon of choice, and I provide my reasons. This post has no other purpose than to express my desire to own certain weapons that I cannot as an American.

The Ultimate Method to Make Your Computer Safe and Secure

The best way to make your computer secure and private is to have very strong encryption and use an obscure operating system that very few people know about. Here we look at 37 obscure computer operating systems.

Is America a Republic or is it a Democracy – What is it?

Here we take a nice good look at what the United States is today. We look at reports that are suggestive of other governmental organizations. We look at what is going on contemporaneously inside the United States, and we look at how the United States behaves globally.

Nations that an American Man could Travel and Relocate

to – Part 1 Here, I suggest places where an American man could go if he wanted to start all over again. You know, this happens. Often a man will go through a nasty divorce, or get raked over the coals by a business associate or the United States government. When it happens, it's time to start new.

Nations that an American Man could Travel and Relocate

to – Part 2 Here, I suggest places where an American man could go if he wanted to start all over again. You know, this happens. Often a man will go through a nasty divorce, or get raked over the coals by a business associate or the United States government. When it happens, it's time to start new.

Alternative Search Engines instead of Google

Google does two things that I do not like. Firstly, they vacuum up everything you do and send the information straight to the American deep state; the NSA and DHS. Secondly, they censor your results for you according to what they think you should see. Here we look at alternatives.

The Consequences of the #MeToo Movement

While the #MeToo movement burst forth onto American culture with good intentions, it was soon coopted by those with selfish and sinister intent. The aggressive nature of the accusations, and the consequences of being accused became dangerous. Here we look at the corporate aspect.

The Lies the Media Tell Us

The United States mainstream media does not report "news". Instead they fabricate events that are designed to manipulate. They do not employ reporters. They employ actors and they stage events for public display. Let's talk about this serious situation and how to avoid manipulation.

What High School Taught me About Democracy

America was formed as a Republic. Yet, for many decades we were brought up in the notion that the United States is the greatest "Democracy" in the history of the world. I have my own opinions about that. Democracy is "mob rule". Let's talk about it from what I learned in my High School.

The New Global Order and How to Survive It

The world is polarized. There are two distinctly different ideologies. One is the traditional conservative ideology. The other is the progressive globalist oligarchy that controls just about everything in the West. The future of the world hangs in the resolution of these two ideologies. We discuss that here.

Ode to Diabolical Cretin John McCain

Well, that evil son-of-a-bitch is finally dead. If his grave wasn't so far away, I go there and dance on top of it. This guy has spent his life backstabbing people, hurting people, concocting wars, and doing everything in his power to disrupt the lives of people. Good fucking riddance.

A listing of the different types of Conservatives found in America today.

In America there are two political parties that are composed of people with different interests. The mainstream American media has, over time, and repeatedly mischaracterized the conservative membership. Here we set the record straight.
