One of my contentions is that time, as we understand it, does not exist.

Instead, what we view as time is actually a constantly changing “bubble” of reality. We view the passage of changing events as “time”. It is a direct arrow.

However, that is an illusion. Our reality is a constantly changing bubble. Within that bubble, both our future histories, as well as our past histories (!) are subject to change. This bubble of reality is an environment, set up by soul, to create experiences by which the consciousness can be exposed to.

It is customized to the consciousnesses that inhabit it. And also influenced by the thoughts of nearby or adjacent realities (world-lines). Each time we have a thought, our reality changes and reorganizes. Often we don’t see the changes. They only manifest later.

In this post I will present two examples, caught on film, where our reality changes.

What makes these observed actions, qualify for a change in reality, is that the changes are recorded by the observer. That’s right. Thoughts change our reality, and the thoughts of the observer is the mechanism for this. In both cases there is no clear view of what transpired. One micro-second the change happens, and the nexus of the change is hidden.

The examples shown identify people leaving, and people entering our reality. Instead of consideration towards MWI slides or world-line changes, these examples stand alone as the angle of the observer recording the event are clearly showing something other than world-line egress or entry.

Introduction

The traditional model of the universe is well known. There is one physical world. We all live on it and share our experiences on it. When we die, we go elsewhere outside of our reality.

In this traditional model, our behaviors while we are alive determine the manifestation of our experiences afterwards. Heaven or Nirvana if we are good, Hell or damnation if we are bad.

This model has been fine for many centuries. However, the moment that we want to leave our reality, it all collapses. This is because our traditional model cannot explain the nature of the quantum realm, the behaviors of entangled particles and the duality of observed behavior due to thought influences.

For us to venture outside of our reality, we must change the way that we look at things. We must recognize that the world, as we assume it to be, does not exist. Instead something else exists.

How the Universe Works

What everyone seems to think "Heaven" is, is the sum totality of what there is. It is all and everything. Including this blog post and you.

Heaven is also graduated. It possesses different regions and areas. Each region or area have different concentrations of quanta. They form different densities. Some of which are very dense with one type of quanta, and others are dense with other combinations of quanta. It is a complex "soup" or "stew" of quanta that pop in and out and move about all under the influence of other "influences" (I will discuss these later.).

Consider "Heaven" to be everything. It includes the physical universe and the unseen "Heavens" often referred to in religious writings. It is a place where everything is composed of the smallest building blocks or components possible - quanta.

Within this realm, are clumps and arrangements of quanta. The quanta naturally starts to entangle with other quanta. They form arrangements, and dance about in certain ways. Over time, they get larger and more complex. They form things. They precipitate into simpler, slower and coarser things such as physical rocks, dust and energy.

Eventually, some of the quanta form into constructions that obtain sentience. The groups of quanta with *sentience* are called "souls".

The souls realize that the way that they can grow and advance is to organize their quanta. There is only one problem. Quanta can only organize through entanglements. They need to entangle with other quanta.

The way entanglements work is through association, or better yet, *experiences*.

Our Bubble of Reality

So, in order to obtain these experiences, the soul creates a bubble within Heaven.

The soul creates a defined ψ -epistemic region. This region comes from a template of all the possible realities. It is chosen specifically for the kinds of experiences that its' consciousness would acquire while within the bubble.

It is an environment where the soul can obtain experiences.

These “bubbles” are regions that can best be defined as a construction. They are constructed regions manufactured by a given soul to obtain experiences within. These regions are unique and custom for a given consciousness. They are unique.

A soul exists within “Heaven”. It creates a “bubble” and places a physical body within this bubble.

This body experiences the bubble as “reality”. That is what our reality actually is.

A soul would connect to this bubble of reality via a “tube” or an interface. We call that interface as “consciousness”. Souls can have multiple consciousnesses but only one consciousness may occupy a given reality at a time.

A bubble of reality consists of four set “dimensions”. Three spacial dimensions and one of entropy; time.

The “passage of time” is simply our reality bubble changing by our thoughts. Additionally, other nearby bubbles also move about and change. They can influence our bubble as well.

The control over this bubble of reality is quite possible. That is because our reality changes with our thoughts. Each thought changes it.

Since each thought changes our reality, you could very well come to the conclusion that thoughts create time. This is because a change in the state of our reality is perceived as time.

Indeed, the thoughts of the consciousness within the reality can alter the reality. Thoughts can make or break the experiences of the consciousness. As such the soul can learn from the consciousness and it's decision making process. This is of course, through manipulation of the three dimensions plus the "dimension" of time.

Consciousness experience events within the reality. As such they generate thoughts. The thoughts alter and create the reality that the consciousness exists within. As such, the consciousness obtains experiences and learns from them.

A really basic diagram of the general organization of "Human" Heaven. Each individual soul constructs a "reality". It then provides a conduit to the biological presence within that reality. This conduit is known as "consciousness". Note that no two consciousnesses share the same reality.

However, there can be influences in the non-physical reality aspects.

"Seen" dimensions typically are referred to as the physical world. While "unseen" dimensions are referred to as various levels or dimensions of Heaven.

But, what exactly is heaven?

Please refer to the image above. How “heaven” is organized. (above). This diagram is a simplistic version of what a human “heaven” looks like. Let’s suppose you (the reader) is sitting down in your house reading this manuscript. That figure is the icon of the blue person shown by (B). You exist within this “bubble” or reality also shown by (R1). This “reality” includes the chair you sit in, the television show that you are watching, and the coffee beside you.

Extending beyond your (physical) reality is your “extended” (non-physical) reality (R2) which consists of your thoughts, memories and everything associated with it (also known as the “quantum cloud”).

Today, we recognize the “unseen world” to a degree. We recognize radio waves, for instance. We are studying gravitational waves, and have noted the end results of emotion on the physical body. Up until a few decades ago all this was considered the “unseen”. Which was part of Heaven.

Over time, as science progresses, we will uncover more and more of the unseen. Item by item, we will get closer and closer to what our true reality actually is.

Today, your thoughts regarding what you are now reading are moving about in this (R2) reality. This area contains not only thought, but emotion and other generated “influences” (far too complex to discuss at this time).

However, you have a soul (A) that is part of who you are. This soul only partially occupies your reality. In fact, it spends the vast bulk of it's time outside of your "reality". You know it exists, but you are unaware of it's "day to day" experiences, challenges and behaviors.

Your soul can create numerous "realities" with numerous "individuals" (of which YOU are but one of the people that your soul creates) occupying those realities. This can occur at different times and at different locations. However, for now, let's keep it simple and suppose your soul has created only one "reality" (R1) and (R2) for one person (B), you the reader.

Now, let's suppose that you are married to another person that is part of your life. (A pretty common situation.)

That person would be represented by (C) which is but a "quantum shadow" of another person. It is not the ACTUAL person. It only seems that way. (Though in your reality, that person is just as real as anything else in your reality.)

What you see is their world-line version of where they married you and share your reality. It is not an actual reality (from their point of view, but rather the world-line version of them). (Your quantum-shadow spouse is but one version of a near infinite number of world-line variations of that particular person.)

That person (D) is actually living within their own “reality” just like you are. They may or may not see a quantum shadow of you. It is all determined by their version of reality. This of course is determined by their soul (E).

What is of most interest here is how their thoughts affect **your** reality (R1 & R2). While we all have our own “bubble” or reality that we live and exist within, our reality is constantly in flux by the thoughts of others (G). We view these effects as the “*passage of time*”.

A really basic diagram of the general organization of "Human" Heaven. Each individual soul constructs a "reality". It then provides a conduit to the biological presence within that reality. This conduit is known as "consciousness". Note that no two consciousnesses share the same reality. However, there can be influences in the non-physical reality aspects.

The influence of the quantum-shadow of those nearest to us *absolutely* shape and mold the realities that we participate in. We can alter their influence by having "strong personalities", or trying to isolate ourselves from others. However, the more we do so, the less likely we are to learn lessons and have experiences. It is the overlap of thought influences that create the experiences that we learn from.

Both your (A) soul and your spouse's soul (E) exist within a heaven (F).

Your soul's can work out different "realities" or "adventures" for both of you to share to obtain experiences.

A given consciousness with interact with the quantum shadows of other consciousnesses. Together they share experiences. The experiences can be good or bad, but they ultimately help align quanta so that a soul can grow and learn. Thus, it is very important that a given consciousness get the BEST experiences while it is part of a given reality.

The idea, of course, is to obtain experiences and configure the quantum clouds associated with the constructed realities that the soul utilizes. As soul grows and configures itself, it can “improve” and evolve. Hopefully towards an approved soul archetype and sentience.

In the movie “What dreams may come” a Hollywood version of what Heaven might look like is provided. It’s a nice image. However, Heaven can be anything or nothing depending on the thoughts of the soul. Our sentience creates the type of Heavenly realm that our soul inhabits. Which is WHY it is important for humans to have a single defined sentience; one that does not disrupt the sentience’s of other species. In other words, an approved sentience and physical archetype.

As it improves and grows, the vast bulk of it’s quantum configuration dwells at different energy states. Each different energy state has a different place in heaven (F). Two are

indicated by (J) and (I).

To prevent confusion, I would suggest that the reader consider “reality” as the first three dimensions, plus “time” as the fourth dimension.

I would then suggest that the fifth dimension, as world-line swapping (alteration of the “reality” “bubble”). This is very easy to visualize by using the above-mentioned model. For to understand what is happening in this case, the “quantum shadows” within your reality are being rearranged.

Fifth-dimensional travel as world-line travel.

In “world-line” travel, all that is taking place is that the “quantum shadows” are being rearranged within one’s “bubble” of “reality”. This is fifth-dimensional travel. In the example above, Fifth-dimensional travel as world-line travel.

Quantum shadow (C) changes to fit the new revised “reality”. (It is now a yellow person instead of a red person.) We, as a participant within our reality look upon these changes as “world-line” travel.

From this point of view, it should be clear. That obtaining world-line dimensional travel is actually accessing our own soul and requesting it to alter our reality to fit our needs, while at the same time keeping the educational lessons that we are to obtain the same or better. This can be accomplished through certain techniques. In my case, we utilized a biological artifice to bend reality (within the confines of my experience structure).

So, in all actuality, there isn't really any kind of "travel" at all. What is actually happening is the "reality" construct changes in accordance with the wants and needs of the soul.

If a given person, within a "reality" bubble wants to change his "world-line" he would be able to do so with the proper technology. However the changed "world-line" that manifests would be one that would either have the same and equal types of experiences for the soul, or that it would be one that would have more or "better" experiences.

There are even more interesting nuanced versions of "world-line" travel at the "higher" dimensional values. However, for our purposes, let's keep it simple. I would then suggest anything above the fifth dimension as the realm of "heaven".

Our Bubble is Constantly Changing

Our reality bubble is constantly changing.

Depending on your point of view, consciousness either [1] migrates from one bubble of reality to another, OR [2] the bubble itself changes into something different.

I personally believe that the bubble itself changes. However that is too difficult a concept to help explain world-line slides. So, using the idea that consciousness migrates from one location to another (one world-line to another) as a temporary crutch that we can use to illustrate how this works.

This is thus another 'secret of the universe'. Time does not exist. Not mathematically, and not physically. It is the perception of our own individual consciousness as it moves from one "bubble of reality" to another.

Think of a movie reel. It consists of individual photos that are strung together. By changing the images you obtain the illusion of movement. That is what time is.

- Each world-line in the MWI is like a frame in a movie.
- The movement of the frames is viewed by consciousness as "time".

An illustration to help understand how our universe works;
Using the analogy of an (old fashioned) movie reel projector.

This is an illustration of what time actually is. Time does not exist. It is a perception that our consciousness has as it moves and weaves in and out of different world-lines. Here we use an old-fashioned movie reel projector to help illustrate this understanding.

Quick Review

Before we need to go further, please note the summary of state regarding the universe. Originally found here...

The True Nature of the Universe

This is a discussion on the true nature of the universe and how individual realities fit within its' scope. I consider this an important writing and it acts as a "bridge" between the various "schools of thought" on the nature of our universe. What is presented is for your consideration.

- Depending on the scale of consideration, we have a *threshold* of consciousness.
- Consciousness can not exist below that *threshold*.
- Consciousness generates thoughts.
- Below the consciousness *threshold* is a universe that is independent of thought.
- Above the consciousness *threshold* we have a reality that is ruled by thought.

Finally,

- We exist within two (x2) universes simultaneously. One is the reality that our consciousness inhabits, and the other is the realm where our soul exists.
- One universe is ruled by thought and the other is not.

Additionally,

- The ψ is a measure of how thought alters our reality.
- Heaven is ψ -ontic.
- Our reality is ψ -epistemic.
- Tests seem to confirm this.

Putting Everything Together

The sum totality of everything is ψ -ontic. It contains a number of “Heaven(s)”. Souls, which are self-aware clusters of quanta in the form of garbons, create ψ -epistemic “bubbles” of reality, and place consciousnesses there to obtain experiences.

- Experiences plus thoughts create sentience.
- Sentience is a building block that establishes garbon formation.
- Garbon formation, configuration and utilization is how souls grow, advance and move toward the divine.

As consciousness moves about within the ψ -epistemic “bubbles” of reality, thoughts are created and action occurs. The very nature of this CHANGES the “bubble” of reality. We view this change as gradual. We call this the “passage of time”.

However,

Our reality is often changed by huge events, actions and decisions from significant sources. Not just adjacent trivialities such as thought and intent. When this happens, the reality is jolted and more radical change occurs.

This can sometimes be observed.

Man on a bicycle

An old man on a bicycle appears out of nowhere in Penza, Russia.

Penza, Russia where this mysterious event was filmed. Aside from the historical reasons, this region is just a typical region within Russia.

In a video that originates out of Russia, we can see a man pop into reality behind a person telling a story. That is the way it actually happens. You pop into reality, and you pop out of reality. In this case, it is obvious that there is no one behind the person talking. As he is animated and turning about in such a way that it is very clear, that no one is behind him.

[via GIPHY](#)

Then suddenly a person riding a bike just simply rides out from behind him.

Of course, there are those who would argue that it is simply just an unusual camera angle as the culprit. Moreover, indeed that might be the case. Alternatively, it could also be a well done fake and hoax. Who am I to say? However, I post this as a good example as to what reality switches are like.

Notice that there isn't any kind of flash, disturbance in the video recording, noise (that would startle the other people), gust of wind, unusual smell or anything like that.

Here is an event where a man just pops into reality. One could argue that he used a world-line slide and entered our reality. As he apparently alters his vector upon arrival. This is a possibility. However, I argue that what is actually occurring is that the reality around everyone has changed. And he is now part of our new reality. Is the bubble changing or are people entering the bubble?

One interesting point about this video is that as soon as the old man on the bike goes through the portal, he puts his left foot down to stop the bicycle (forward) movement, and then turns the bicycle to the left instead of going straight as he was obviously planning to do (when entering the portal). Also, take note that he instinctively pedaled away from the observers when he arrived. It is almost like he was trained to do so.

This leads me to believe that he has entered “our” reality, with the understanding that he is entering a new reality.

[via GIPHY](#)

If the “nay sayers” were correct, then for a good minute the bike rider rode the bike in a straight line heading directly for the animated man talking. Given physics, this person should have ridden straight through the park behind the animated man, and avoided the trees without swerving. Then, when he touched the pavement behind the animated man, he abruptly changed direction, and made a 100 degree left turn. If that is what actually happened as described by the “nay sayers”, I must posit the most basic of questions; “Why would anyone want to do such a thing?”

Note who the traveler really is and how he appears. He is not a youthful young man in his 20’s. He is not dressed fashionably. He does not appear to be dangerous, wealthy, of importance, or beautiful. He is average. He is bland. He is uninteresting. He is the “real deal”.

Trust me, when you enter a new reality, you don’t want to be noticed. You want to blend in with the wall-paper.

This specific event can be viewed on the following video. Please note that this video has other examples of fakes and hoaxes interspersed in it. Also the voice over and music track leaves much to be desired. Please turn off the audio and watch the video free of “Halloween style” or “B-grade movie” music. Ignore the other fakes and hoaxes. Just concentrate on this particular instance.

Watch from 3:12 to approximately 3:32.

Old Man petals away. This course correction is curious. It suggests an entry into our reality via world-line dimensional travel. yet, how that it be so simple when the observer cannot see the entry into the world-line?

I argue that it is difficult to see what is going on. Is it that a man enters “our” reality, or is it that “our” reality changes to one where the man exists?

Here is the most important point about this dimensional transport; it was NOT observed. Yes, the man was observed. We saw him arrive. What we did NOT see was him entering our reality. That was hidden. It happened BEHIND the other man with a hat.

So, instead of focusing on a man on a bicycle entering “our” reality. Let’s focus on the fact that the observer did not observe the specific entry point.

While the effect is similar, the methodology is not. Dimensional portal egress is a fifth dimensional technique, while MWI dimensional slides are a sixth or seventh dimensional technique. The bubble of reality is altered upon arrival.

The Differences

When I used the portal egress in Florida at the ELF facility, you could see the people entering the field. They would walk into nothing and disappear. We watched people enter into the portal. We watched them disappear. This is portal egress.

However, for MWI slides, the point of transition is ALWAYS hidden from the observer.

| For MWI slides, the point of transition is ALWAYS hidden from the observer.

This tells me that this person was not involved in portal egress. They were involved in dimensional slides.

Portal egress is a fifth dimensional activity. You enter and move within a fifth dimensional reality. Physical locations, times and places change. However, MWI world-line slides are another matter all together. While they appear similar, they are not. MWI slides are a sixth or seventh dimensional event. Realities change.

In a fifth dimensional egress, such as the portal, you go from physical location “A” at time “a”, to physical location “B” at time “b”. Time travel is possible. Physical travel anywhere in the universe is possible. That is fifth dimensional travel.

You can see people entering the portal, and you can watch them leave the portal.

In sixth (or seventh) dimensional travel, the reality *itself* changes. Because reality is associated with consciousness, you will never actually see the egress moment. It will be obscured from sight. In the case with the old man and the bicycle, you cannot see the exact moment that the reality changes because it is hidden from view.

| Reality is connected to consciousness. When an outsider enters your reality, you will not be able to observe the entry if they are using MWI slide technology.

That is seventh (or sixth) dimensional MWI slides. It is a control over the reality, that naturally changes with thoughts within and around that bubble of reality. Therefore, it is a much more capable mechanism for utility.

In a sixth (and seventh) MWI slide you go from physical location “A” at time “a” and reality “AAA”, to physical location “B” at time “b” in reality “BBB”. Everything is possible. You go from one place at one time in one reality to another one in a different place and a different time.

Girl disappears

A video camera is interviewing a person at the airport. In the background a woman disappears in broad daylight. She just vanishes.

Here is an interesting video. A man is being interviewed in what is apparently an airport baggage claim. In the background are two women. As the one woman says good bye, the other woman disappears.

Here we see a woman disappear. Of course, there are other explanations. Maybe she put on a “cloaking device”. Or, perhaps she suddenly exited our reality. I posit that this is reflective of a change in the bubble of reality, rather than a specific egress of a specific person.

In frame, 0166 a man is being interviewed by a camera crew. We see that in the background to his right (our left) are people collecting their baggage and leaving the area. In particular are two women both shown chatting in a friendly manner typical of strangers in an airport. See frame 0167. As the woman departs in frame 0168, we discover that the woman that she had just been chatting to has disappeared in frame 0169.

SNAG-0014

SNAG-0015

The girl is gone. What happened to her? Did she egress from our reality, or, as I posit, our reality is constantly changing all around us. Maybe this is all just academic. What does it matter, if the bubble of reality changes or the individuals entering or leaving the reality changes?

Where is she? Frame 0014 and frame 0015 taken less than a millisecond or two later shows her completely missing.

Playing the "**devils advocate**"...

Perhaps there are other physical reasons for this strange disappearance. Maybe this was a strange camera angle that caused this effect, or maybe she was playing a prank or trick. However, if the woman intentionally wanted to hide, she would have to have immediately fallen to the floor to get out of the view of the camera.

What this represents could be anything. However, if I were to put a technological spin or attempt to interpret what I see, I would suggest use of an invisibility device, or a dimensional shift. This type of strange event is not suggestive of a time portal or similar device.

The reader should also take note that all of the people so presented in this post are all "normal" and "average" appearing. She is just simply a friendly stranger. Not one that would cause a person to make a "double take" or take notice of them in any way.

Normal woman. One minute she is present, and the next minute she is gone. Where did she go? I argue that her disappearance is tied with the observer. Therefore, this is obviously evidence of a MWI seventh dimensional slide.

Examples of Seventh Dimensional MWI slides

For what ever it is worth, a sixth or seventh dimensional slide will have variances. No two realities are identical. When you try to target a specific location, the mere thoughts that you have ("I'm going to a different reality") will result in changes to your target reality.

While my role involved this kind of travel, my personal experiences were not that radically different from what you would expect. Here's a couple of examples. They are nothing stunning, or even noteworthy. They just serve as a constant reminder that when a person enters a reality, the thoughts *alter* that reality in different ways.

The World-line without Zippers

Most world-lines looked like every other one. If you did not know better, you might not realize that your reality was different.

When you slide, you just cannot notice any difference. Once, I did a slide and everything looked the same. No big deal. As always, I just continued to do my work. My work assignments were the same, and my friends were the same and my wife was the same. My pets were the same.

As always, I wore a polo shirt and loose tan slacks. I was pretty typical in my role within the corporate working environment. I wore my badge on a lanyard that hung around my neck. I wore brown laced up shoes. I had a brown belt, and a pretty empty wallet (heh heh.).

However, I did notice something different when I went to the bathroom to take a pee.

My trousers did not have a zipper. Instead of a zipper were buttons. That's correct. There were three buttons that I had to undo to go and pee. I don't know if I liked having a button front, or a zipper front. I think a zipper front is much more convenient, but there was something clean and simple about having buttons...

This serves as a pretty good example of the kinds of differences you might expect when you conduct a seventh dimensional slide. Here's another one. This one is much more radical.

The Plastic Surgery World-line

Most of the world-line slides occurred within hours or days. This period of time, a mere few hours, is not long enough to determine what the differences are in a new world-line. That is because, and I remind the reader, that most of my world-line slides were very similar to the previous world-line. This was by intention and was necessary for a host of reasons.

I well remember that I once went into a new world-line that looked identical to the previous one. However there was one noticeable difference that I well recall. It was so odd that I will never forget it. There was an advertisement for a plastic surgery hospital. On the billboard was an attractive woman who was cradling her tummy as she was obviously nine months pregnant. The words in the advertisement went something like this;

"Let Doctor XXXXXX sculpt your body for the expectant mother look."

WTF? In that world-line you could have plastic surgery that would make you look like you were nine months pregnant. Talk about doing a "double take"!

Since that time, I have never seen anything like that. Heck, I don't even know how you would actually do that in practice. WTF?

What can we Learn?

- Fifth dimensional travel enables us to travel geographically anywhere in the universe. That includes the other side of the planet. That includes a planet around a distant star. That includes a planet in a very distant galaxy.
- Fifth dimensional travel enables us to travel anywhere in time and arrive at any date. That includes travel to (projected possible) future. That includes (assumed possible) pasts.
- Fifth dimensional travel influences world-line realities trivially. While thoughts are influenced by our thoughts and actions, the influence is not significant. Resultant observations and associated thoughts do not change the structure of destination realities.

As such, now let's look at the more complex MWI slides. (Personally, I am shaky on the differences between sixth and seventh dimensional slides. So I use both interchangeably. You can chalk that up to my ignorance. I know that there are differences, but as far as my exposure was concerned, it's almost like I jumped over 6th dimensional travel and went straight to seventh dimensional egress.)

- 6th/7th dimensional MWI slides affect consciousness.
- As such, they have a significant influence in the construction of our reality.
- The shape of the reality that our consciousness inhabits affects the thoughts that we have.
- Our thoughts directly influence our sentience.
- Sentience is a tool that shapes garbon and swale configurations in the soul

How does the thoughts that we have influence WMI slides? That is a very complicated issue, and something for an entire series of posts. For now, just realize that there is a relationship present.

Conclusion & Take Aways

Many of the unexplained events that we come across is easy to explain when you have a comprehensive understanding of how the universe works.

- The *passage of time* is the name that our consciousness give to understand an ever changing reality.
- There is a significant difference between fifth dimensional portal egress, and seven dimensional MWI slides.
- Thoughts influence reality. The level of influence depends on the dimensional changes inherently involved.

FAQ

Q: Why does higher order dimensional travel (7th compared to 5th) have a greater thought influence?

A: Research suggests that the human brain is almost beyond comprehension because it doesn't process the world in two dimensions or even three. No, the human brain understands the visual world in up to 11 different dimensions. The brain processes visual information by creating multi-dimensional neurological structures, called cliques. The cliques have up to 11 different dimensions and form in holes of space, called cavities. Once the brain understands the visual information, both the clique and cavity disappear.

The cliques work with memories to generate thoughts. The level of activity involved interfaces with the reality as accessed by consciousness. The strongest interactions are at the sixth and seventh dimensional states.

At every moment you are thinking, multiple multi-dimensional structures arise in your physical three dimensional brain. It is an open system interacting with much higher dimensional realities that cannot be encompassed in the material 3-d world. As such, higher order topologies are necessary to describe thought. Thought does not occur in the three dimensional material stuff of life solely or exclusively, but outside it, as something coupled with it.

Q: Why is the man on a bicycle and the woman at the airport considered to be seventh dimensional MWI slides?

A: In both cases the absolute point of transition into our reality is obscured. The observer cannot notice the change. I argue that this is a fundamental aspect of our reality that does not permit the observer to observe seventh dimensional egress.

Q: Why do both the woman and the man who transported into the reality seem normal and plain?

A: A person who does utilize any type of dimensional transport does not want to bring attention on to them. Instead they want to be forgotten and not be noticed as they go about their various tasks.

How to tell if someone is in MAJestic (Part One)

There are many fakers out there. I really do not know what their motivations are. Some might actually have some experience, I don't know. None of them seems to have any kind of background that even approaches the membership I know of. This is how you can sort out the truth from lies.

How to tell if someone is in MAJestic (Part Two)

In this second part, we go into details on how the United States safeguards secrets. We talk about the MJ-12 disclosure and a historical overview of MAJestic. We also discuss the various reasons and restrictions that MAJestic is operating from. It's an important read.

Top Secrets and Flying Pigs

Here I try to explain how the Special Access Program works, and described how the most secret elements of those programs are kept waived and unacknowledged. I discuss why, and use the example of a fictional "Flying Pigs Program". To understand MAJestic, you need to read this.

The “Sales Pitch” Used to Ask Naval Aviators to Give Up Everything for MAJestic

This is a narrative on how I was offered the role within MAJestic. I was in training to be a Naval Aviator when I was called upon by the base commander. He asked me, and another AOCS, to join. This is how he convinced me.

Feducial Training of ELF-Based MWI Access

This is a small post about the training that we needed to learn into to enter into a transport mechanism for MWI access. You cannot access and switch world-lines without being able to access and “center” the implanted probes. This discusses this procedure and training.

MAJestic Mandated ELF-probe Implantation

This post goes into detail on how the first two “kits” of probes were implanted into my head. All of this procedure took place on the Naval base at the ELF substation. At the time, only myself and the other member of my “cell” aside from the Commander took part in this procedure.

My Very First MWI Portal Egress

This is a narrative of my very first experience in world-line travel. It happened immediately after I gave up flying as a Naval Aviator and joined the MAJestic organization. After training on feducials, and implantation, I joined a group of others and left our world-line.

First Egress Destination - EBP Implantation & Entanglement

This is the narrative of what transpired when I entered the Fixed Dimensional portal. I went to an extraterrestrial medical facility where a EBP was installed within my body. I discuss what happened and my first encounter.

Post EBP Reconstruction -Return To The Navy Barracks

This is my narrative on how I exited the dimensional portal and returned back to the Naval base. I discuss what it was like meeting my fellow classmates and how I was instructed to leave the Navy and become a civilian. This is how it is done and what I experienced.

MAJestic Mission Shut-down & Retirement

All programs must end. This is how members of MAJestic that have core kit #2 probes implanted are retired. As they all need to be retired in a specially equipped facility and subject to a life time of monitoring. We cover the entire process and what is involved.

What life is like inside the ADC Prison in Arkansas

This post discusses what life is like in a hard labor prison in Southern Arkansas. We discuss hoe squads, food, the hole, commissary, dress, fashion, homosexual culture, prison gangs, murders, relationships and other aspects of life when you are sentenced to "Hard Time".

MAJestic Related Posts – Our Universe

These particular posts are concerned about the universe that we are all part of. Being entangled as I was, and involved in the crazy things that I was, I was given some insight. This insight wasn't anything super special. Rather it offered me perception along with advantage. Here, I try to impart some of that knowledge through discussion.

Enjoy.

The Drake Equation as Viewed by MAJestic

Many people use the Drake Equation to figure out why the average person is not exposed to extraterrestrials. Yet, MAJestic members know the real reason. Here we review the variables within the equation relative to MAJestic understanding and discuss things relatively.

Our Galaxy as Presented to MAJestic

Here is a very general overview of the little that I know about our galaxy. It is a mixture of known and accepted science blended with what I was exposed to in MAJestic. Of course, what is presented is within the limits of what I understand, no more. So it is actually a rough outline.

Sirius is not the home of the Enlightened Extraterrestrials

There is a rather large number of “spiritualists” who are convinced that enlightened beings from the Sirius solar system have come to earth to teach and instruct us humans. I actually find it rather laughable. Here, I review what Sirius actually is and why no great enlightened beings live there.

The Alpha Centauri System

Here are my thoughts on the Alpha Centauri System. It is, as always, a mixture of conventional science and what I know through my relationship with MAJestic. Keep in mind, that I am a man with limits. It is but an overview, and what is presented might hold some surprises.

The Fuselage embedded within the rocks of Victoria Falls

There is evidence that there was an accident (of some sort) that damaged a vessel (of some type). Over the years it has become buried in silt, which later turned into stone. Here we study this issue.

The Hammer inside the Rock – The “London Hammer”

Here we have evidence of a shellfish dislodging apparatus or hand-tool that was abandoned millions of years ago. Here we study this artifice. We look at the manufacturing challenges in making such an object and study the environment in which it was lost.

The Hollow Moon

Why is the moon hollow? This is one of those uncomfortable facts that just doesn't jive up with the conventions of accepted scientific knowledge. Yet, every study has confirmed this to be the case. Here we study this issue in detail.

The Mystery of the Lapulapu Ridge

Deep down under the sea in the greatest depths of the Pacific ocean is a mobile underwater city. It's been operating there for many, many years. It has been leaving tracks and debris middens all over the place. Here, we look at this in some detail.

Mystery of the Baltic UFO

Sonar scans, and visual confirmation, indicates that a large disc shaped object skimmed the undersea world of the Baltic sea and crashed. Subsequent investigations were suppressed. Now, all that is available for study are a small pile of rocks. Let's look at this mystery shall we.

Mystery of the Bronze Bell found inside a block of coal.

A hand-bell made out of brass was discovered totally encased in a solid block of coal. What is so interesting about this bell is that it depicts a winged humanoid. The only thing is, the coal dates from a time long before birds, where only insects flew in the skies.

The Oil Lamp Discovered in a block of coal

Many things have been found encased within rock hard coal. One of which is a small "pot". This is obviously the lower part of an oil lamp, common a few thousand years ago. The problem is what is it doing in millions of year old coal?

Did Extraterrestrials set up a colony in Pennsylvania?

Sounds really strange doesn't it? Well, here we talk about the possibility of a community of very "unique" red-skinned, horned giants, with firearms were actually a colony of extraterrestrials. It's a long stretch. Yet, we look at them from this prism, as unlikely as it is.

The Oxia Palus Facility.

Here we talk about a facility that I know a lot about. It is a MAJestic aligned facility on the surface of Mars in the Oxia Palus region. It is many things, and was initially a mining operation with a smelting and processing facility. Here we discuss this facility as an overview only.

Let's chat about Brown Dwarf solar systems

Up until a very few years ago, no one knew if Brown Dwarf stars existed. Now we know that they do indeed exist, and that they are everywhere. Most people are unaware of them, but they play an important role as these dwarf stars are the home of many an intelligent extraterrestrial.

NASA Manned Space Exploration - What happened?

When President killed the Apollo space program, and Jimmy Carter neutered NASA, everyone sat back, fat and content that money was not being wasted and that instead American infrastructure was being taken care of. Here is the real reason why Apollo and manned space died.

The Disclosure of the CARET Program at PACL

A full unapproved disclosure of a MAJestic related reverse engineering program was released to the public. It concerned the CARET program at PACL. It was quickly attacked and debunked. A music video was even generated as part of it. Here is the full documentation package.

Yes, We Do Live in a Multidimensional Universe

Here we discuss how world-line travel is possible. We look at the physics of the MWI and the mathematics involved. We also discuss an overview of Heaven, our universe and how our experiences within our reality are important. In our reality, everything is possible. It really is.

The True Nature of the Universe

This is a discussion on the true nature of the universe and how individual realities fit within its' scope. I consider this an important writing and it acts as a "bridge" between the various "schools of thought" on the nature of our universe. What is presented is for your consideration.

Why our Understanding of Reality is False

Here we discuss four paradoxes of the second law of thermodynamics and use this as a springboard to illustrate that it is impossible to understand our reality within the MWI using Newtonian limitations placed on us through observation.

Evolution of the first sentient life on Earth.

Humans are not the first intelligent life on earth. There were many others. Here we discuss one of the first species of intelligent life; the Cephalopods. They have existed for hundreds of millions of years, and now exist as octopi that inhabit the oceans around us. Let's talk about them.

Transport of an Extraterrestrial Modular Structure

In 2012 through 2014, a huge armada of skyscraper-sized modular components was tracked inbound to our solar system from deep space. They decelerated and landed on the moon. This is the story of how MAJestic scrambled to find out what was going on at this time.

The Frightening Possibility of Genetic Social Stratification

The primary mission requirements that I was involved in lay in assisting our benefactors in human sentience determination. The human race is moving towards a day of evolution and key to that point in time is the chosen sentience we select. It has frightening consequences.

MAJestic Related Posts – World-Line Travel

These posts are related to “reality slides”. Other more common terms are “world-line travel”, or the MWI. What people fail to grasp is that when a person has the ability to slide into a different reality (pass into a different world-line), they are able to “touch” Heaven to some extent. Here are posts that cover this topic.

Some True Stories of Cat Heaven

Being in MAJestic taught me many things. One of which was an intimate understanding of Heaven and other “spiritual” things relative to quanta entanglements. Here I discuss what it is like to have a beloved animal (cat) dies and what actually happens to them and why.

Consciousness Migration for World-Line Travel

This post discusses how Heaven was formed, and what reality actually is. It discusses how world-lines function and just what MWI (Many Worlds Interpretation) is. This little post is the foundation of all aspects of my particular involvement with MAJestic. As such, it is important reading material.

What I miss from my original world-line

This is a little micro-post of some of the things that I miss from my time “before” I got involved with MAJestic and all that MWI “stuff”. It really makes no sense to anyone in this reality, but to me, it’s pretty important stuff. It’s simply a compilation of some of the quirks of this reality that are different to me.

An Observed World-Line Switch - The Aluminum Foil Lady

Here is a report of a person entering this “world-line”. She appears on a busy road and is filmed by an automobile dash cam in the process. She is wearing a protective thermal “space blanket” material coat, and is apparently dressed like a nun. We discuss her and the utility of roads in this context.

World-Line Travel Using Vehicles - Some Examples

There is ample evidence that people are entering and leaving our reality using various methods and techniques. One of which consists of vehicles with heavy devices that enable world-line cross-over events. Here we discuss these events and look at numerous examples.

A World-Line where the Beatles Never Broke Up

Here is a story about a man who ended up getting hurt and was rescued by someone from an alternative world-line. He tell his story and brings back a Beatles mix tape as proof. We discuss his adventure relative to MWI slides and look at commonality of descriptions.

World-Line Creation and Stability Considerations

Let's talk a little bit about what a world-line is, how it is accessed, and why it sometimes needs to be accessed. This isn't full of all kinds of stories about visiting different world-lines, but rather why certain advanced species use the MWI to control the sentience evolution of humans.

ProfessorPhate as an Example of MWI Crossover

In 1999 an individual going by the name "Professorphate" produced a narrative claiming that he was from another world-line. In his narrative he talked about this other world-line and the circumstances that brought him to our apparent reality. Presented for curiosity only.

Links about China

How a Business KTV Works in China

KTV's are all over China. They range from tiny booths, to family affairs to fancy palaces for friends. Here we discuss a kind of "seeder" side of the KTV phenomenon. We discuss the KTV used to discuss business and to reward high-performing employees; The Business KTV.

The Dance Craze that is Sweeping China

China is a big country, and as such it has passing fads and events that everyone seems to participate in. The latest is a dance craze that is based on a silly song involving Tarzan like yodeling. Everyone is doing it from kids, to policemen, doctors and entire school classrooms.

The Tale of the End-of-the-Day Potato

When you finish a good day's work, how do you like to be rewarded? How about a nice beer, and a nice well-cooked meal? How about your dogs or cats near by? How about a kiss on the cheek, a nice frosty alcoholic beverage in your hand? Or, as I have found, my end-of-the-day potato.

News as Every-Day Dog-Shit

Has the news that you read every day benefitted you? Has it made your life better, happier, calmer or helped you to make more money? What benefit do you derive from reading it? Chances are that it provides no benefit at all; you are just a slave to habit for others to manipulate.

Attack of the Dancing Grandmothers

One of the things about China is that the old folk love to dance and exercise. They get up at the crack of dawn and dance to loud disco until every goes out to work. Then they rest. They return to dance at dinner time until night. Here is my take on this crazy and popular Chinese pastime.

When the SJW Movement Took Over China

Many people are unaware that the SJW movement is not regional to the United States. It is global. It reoccurs in a generational cycle. China has experienced three such cycles in my lifetime. This is the sad story of what happened when the SJW's were permitted to run amok in China.

The Importance of a Family Meal Together

One of the most important things that I have learned is that friends, family and close-ones should share meals together. Further, they should do so with some sense of formality and purpose. Here is my take on this issue, and how I prefer to structure my family meals.

Freedom and Liberty in China

As Americans we have been raised into believing that America is an oasis of freedom in a world of chaos. We have been taught that other nations are shit-holes and that communist nations are the worst. Well, the 1960's narrative doesn't play well in the 2020's reality.

The Ben Ming Nian – The 12 Year Curse

The Chinese believe that all life have both a physical reality and a non-physical reality. As such it goes through a twelve year cycle. Every twelve years it sort of resets itself. A new phase of life thus begins. Here we discuss this from the point of view of interactive quanta and patterns.

Beware the Expat

There are a handful of expats that have left America to explore a new life outside of America. We do so for many reasons. Some of us want a new quiet life, while others want excitement. Still others want to unleash their criminal skills on an unsuspecting public. Be aware.

How to tell if Wine is Fake in China

There are many fake things made in China. From fake designer purses, to fake mouse-traps. If someone can make some extra money by making something fake, they will try it. Here, we talk about one of the most dangerous of fake goods; fake red wine.

How China Deals with Obesity

In the modern world, obesity is a real problem. People all over the world are getting fatter and heavier. The American solution is to ban fattening things, and make laws to control behavior. Here we discuss the Chinese solution; to provide areas to dance and exercise.

China and America Comparisons

Democrat Busybodies and the Destruction of Freedom

Wouldn't life be wonderful if you could just be left alone and live your life in peace? I think so. The founders of the United States thought so, however there is an army of busybodies who disagree. They have this vision of utopia where everyone listens to their commands.

Comparison between American and Chinese Playgrounds

The differences between American and Chinese playgrounds couldn't be more telling. It is a tale of how things are handled differently and the roles that parents take. In China the role of the parent is to equip the child for life. While in America it is to protect the child from life.

What Authentic Chinese Food is Like

The entire world feasts on "Chinese Food" served in "Chinese Restaurants". This could be a Chinese take-out in Memphis, to a "Dim Sum" restaurant in NYC. As delicious as these establishments are, what is it like to eat real, Chinese food, in China? Well we talk about it right here.

The Last Straw – Why I Left America

We all come to cross-roads in our lives. We experience life in all of it's glory and pain. This is the story why I left the USA and moved to China. It's not that I hate the USA, I love it dearly and miss it terribly. However, a series of events and changes pushed me out. This is my story.

What happens when you try to implement Diversity Initiatives in China

This is a very good story in what happens when a young millennial tries to implement diversity initiatives in China. There are many lessons here. From how pompous SJW's are to misconceptions about what China is.

What High School taught me about Democracy

Yes, I know, the United states is supposed to be a Republic. However, running for president in school was set up as a Democracy with majority vote. I learned a lot about the follies of a Democracy and what eventually befalls it. I wish to share those experiences with you.

Why an American man should leave America and Travel

America is great. It is large and wonderful. However, we all need to set outside of it to really appreciate what we have, and to face what we do not have. Only then can we really understand where our problems originate from and how to resolve them

Top Ten Misconceptions that Americans have about China

There are many misconceptions about far-away places. China, due to it's size, and relative importance as a source of manufactured products is often the target of many a ill-defined comment. The disconnect between reality and perception is enormous. Here we discuss it.

The Top Ten Misconceptions Chinese have about the USA

When the Chinese come and visit the United States, they are often spellbound in shock and amazement. They find that they LOVE, absolutely L-O-V-E the United States. I have many friends who have told me this. Another thing that they have told me is that it was not what they expected.

Comparisons Between American and Chinese Girls

Here we compare the differences in beauty between Chinese and American women. Since beauty is in the eye of the beholder, we spend some time looking at what makes women attractive to the opposite sex and why. Then we look at attractive girls comparatively.

Learning About China

Learning About China through Looking at Pretty Girls -1

Here we discuss elevators, eating at work, subways, residential areas, apartment building hallways, riding on boats, family KTV's, getting out of cars, tennis courts, department stores and restrooms. It's pretty amazing what you can learn by looking at pretty girls.

Learning About China through Looking at Pretty Girls -2

Here we discuss suburbs and memorials. We discuss malls, Arabic culture, parking garages, bedrooms, living rooms, and living in Guangzhou. We discuss walking and talking. Finally a nice hypnotic dancing video for fun. It's pretty amazing what you can learn by looking at pretty girls.

Learning About China through Looking at Pretty Girls -3

Here we discuss more malls, farms and their kitchens, pools, apartment (3rd floor) parks and open areas, dance studios, military barracks, riding on a yacht, beaches, waterslides, and the garages outside a housing development. It's fun talking about China with all sorts of pretty girls.

Learning About China through Looking at Pretty Girls -4

Here we discuss public parks, gyms, work offices, apartments in Shanghai and the excellent views there, the Southern Chinese coast, Pizza Hut, speaking and singing in English (as a second language), sofas, safety at night, the ideal face, and buying gold in Hong Kong.

Learning About China through Looking at Pretty Girls -5

Here we discuss Shanghai, highways, hotels, exercise, and elementary school students dance-exercising, after-school dance classes, public squares and dancing and carrying on in public. We talk about rural kitchens, doors in apartments, and Chinese apartments in general.

Posts Regarding Life and Contentment

Here are some other similar posts on this venue. If you enjoyed this post, you might like these posts as well. These posts tend to discuss growing up in America. Often, I like to compare my life in America with the society within communist China. As there are some really stark differences between the two.

The Most Important Things That a Man Looks for in a Woman.

Here, we look at the things that men search for in a woman. These things are considered, by men, to be absolutely essential in a mate. We discuss ten attributes and go into detail as to why they are important.

Adventures Exploring the Cemeteries of Indiana

Cemeteries can tell us a lot about ourselves, our history, and our future. This is most especially true in regards to smaller and remote cemeteries located in the counties that surround us. This is my story about the impressions that my forays into these curiosities made upon me.

What it was like being a kid in the early 1970's

This is my narrative of what it was like growing up a a young teenager in 1971. This took place in the hills of Pennsylvania outside of Pittsburgh. I was 13 years old. I went to school, rode my bicycle around everywhere. I fished with my father, and watched television a lot.

The Fiasco of the Reengineering of the Common Tomato

This is the sad, sad story about how the wonderful and tasty tomato was reengineered to be “better”. It was made better to ship. Better to sell. Better to store. However, there was one thing missing. No one paid any attention to taste, which is why it tastes like a cardboard shipping box today.

A Movie Tribute to the 1980's When Ronald Reagan Ran

America. Here we argue that movies reflect society when they were made. Today we see popular movies being remade as all female versions due to the progressive realities today. Likewise, the movies of the 1980s reflected the time when they were made as well.

Mad Scientist Explorations

Here we discuss what it was like growing up as a boy in the 1960's and the 1970's and the people, things, and adventures that inspired us. As such, we explore how the independence of growing up enabled us to cope through life when we got older.

The Gorilla Cage in the Basement

When I was a small boy, I used to play in the abandoned buildings nearby. Here is a story about one of the objects that lay hidden inside one of those buildings and the possible mysteries that it held. As a child we thought it was a gorilla cage, now as an adult, I am not so sure...

The Importance of a Family Meal Together

There is nothing more important and satisfying than spending time together with friends and family and eating a meal together. It is a time of friendship, familial bonding and relaxation. Here we discuss what I have learned from my childhood and how I apply it today in my life.

The Pleasures of Fresh Baked Bread with Butter

One of the things that I have come to miss, since I moved to China, is fresh hard crusty rolls with full salted butter. The Chinese are not really fans of crusty bread. They like sweets and sponge cakes. Here I describe something that is close to me; not appreciating what you have right in front of you.

What Work was Like in the 1960's and 1970's.

When people go to work today, they find that there are all kinds of rules and regulations. It is for diversity, safety, inclusion, and improvement in a new progressive world. Well, here is what work was like before it became a sterile progressive testing ground for the New World Order.

Learning during my 1970s High School years

Here is a pretty long post on what it was like to go to elementary school in the 1960's, and then attend high school in the 1970's. I graduated in 1977, and that my friend is exactly the target date for the famous movie "Dazed and Confused". Here is the real deal what it was like.

Some True Stories of Cat Heaven

Being in MAJestic taught me many things. One of which was an intimate understanding of Heaven and other "spiritual" things relative to quanta entanglements. Here I discuss what it is like to have a beloved animal (cat) dies and what actually happens to them and why.

Life Lessons from Working within the Corporate Dream – 1

After I was trained by MAJestic, I was left to fend for myself in Corporate America. It was a hellish existence. As such, I learned many lessons concerning behavior and the ultimate impact that it holds on our families, our friends, our loved ones, and our very lives. Here are my commentaries.

Life Lessons from Working within the Corporate Dream – 2

This is part two of the two part section. There is quite a lot of information to impart. Stories are told, and experiences relayed. Honestly working in corporate America in the 1980's, through the new century really sucked. It was harsh on everyone except the owners of the companies.

How to Build Up Your Life from Nothing.

This is for all those young men who are just leaving school and trying hard to build up their life. You can do it. Here are my thoughts and advice for a young man who is encountering that most difficult of challenges; carving your life out in the wilds of the world.

Allow your Children to Play and Grow (Part 1)

I am horrified, just horrified, that parents do not allow their children to play, roam and explore on their own. It has created a society of pampered fearful children. Here I discuss this in terms of what I know. This is very non-PC and might offend the more liberal readers out there.

Allow your Children to Play and Grow (Part 2)

This is the second part of my rant about permitting children to play, explore and have fun. Everyone, the odds that some stranger will abduct your child is very small. Most people who do this are family friends and neighbors. Stop being so fearful. It harms the development of your child.

Ode to Diabolical Cretin John McCain

Well, that evil son-of-a-bitch is finally dead. If his grave wasn't so far away, I go there and dance on top of it. This guy has spent his life backstabbing people, hurting people, concocting wars, and doing everything in his power to disrupt the lives of people. Good fucking riddance.

The Song “Baby Got Back” Translated into Latin

Here is a fun post. The song “Baby Got Back” is translated into Latin and then back again. I have to tell you that it is indeed hilarious. *Rebecca, ecce! tantae clunes isti sunt!* (Rebecca, behold! Such large buttocks she has!) Anyways, it’s just all fun and games. Enjoy.

More Posts about Life

I have broken apart some other posts. They can best be classified about ones actions as they contribute to happiness and life. They are a *little different*, in subtle ways.

On Being an Older Gent

Here are my thoughts on growing old as a man. The truth is that the life that I expected to have as I was growing up never materialized. Instead, something else manifested. My life today is nothing compared to what I thought it would be. For my illusions were created by American media.

Calexit and the American Civil War

This is a pretty detailed look at the causes of the American civil war, and why it wasn’t about slavery. We look at the rewriting of history by the internet, and the efforts that President Obama took to keep California intact so that the Democrats could maintain political power and control.

Why an American man should leave America and Travel

All people should get up off their duff and go forth and Travel. However, this is most especially true for American men. The United States has become a crucible of PC progressive realities that attack and depreciate American men. Go out, young man, see the world as it really is!

The Amazing Bremelanotide PT-141

Forget Viagra, and all those other ED medications. This is the real deal. This little baby causes humans to *go into heat*. It interacts with the brain and sets up feelings of intense arousal on both men and women. It turns people into 16 year olds. As such it is banned in the USA by the FDA.

Bronco Billy and the 25th Law of Power

Bronco Billy is a fictional movie starring Clint Eastwood. The movie depicts the life of a man who decides to change his life and go ahead and do what he has always dreamed of doing. He goes out and becomes his dream. There are lessons here for all of us, we only need listen.

The r/K Selection Theory applied to American Politics

The r/K theory is a pretty well-known theory on animal behavior. It simply states that animals behave as they need to based on the scarcity of resources. Here, we argue that it can be applied to why humans follow different political philosophies. Especially in American politics.

How they get away with it

Ten years ago, Bankers committed fraud in Wall Street that just about devastated the nation. Earlier, we had the S&L fiasco, the nightmare with penny stocks, and now the grand wholesale treason with the selling of Top Secrets to a foreign nation. This is how they get away with it.

The Line in the Sand – Now What?

It's the same story. Just vote for us, and we will correct everything. Yet, nothing ever happens. You know, boys and girls, this old "song and dance" can only be maintained for so long. Eventually it will fractures, and people will no longer rely on elections to institute change...

The importance of having a second passport.

So President Trump is building a wall to protect Americans. Hum. Where have I heard that before? Oh yes, in Germany right when they were making the wall that separated Berlin. Walls serve two purposes; they keep people out, but they also keep people in. Be careful what you wish for.

How Rocket Scientists Build Paper Airplanes

This is a tale of what me and my classmates used to do when we were young Aerospace Engineering students at the university. We would design paper airplanes and shoot them down with bottle rockets. Here is just a fun little exercise down “memory lane”. Enjoy.

What is Snopes.com and can it be Trusted?

Snopes is a “fact check” website that is fully funded by the oligarchy. It is used to “shout down” any narratives that does not support the rich and powerful, and politically connected globally. Here we discuss the organization, who they are and what they represent.

Today America Taxes it's Expats without Representation.

This is a sad state of affairs. Americans who reside outside of the United States now have to pay American taxes, even though they have no representation in Congress. As I recall this was one of the reasons for the American cry for independence in 1776.

What life is like inside the ADC Prison in Arkansas

This post discusses what life is like in a hard labor prison in Southern Arkansas. We discuss hoe squads, food, the hole, commissary, dress, fashion, homosexual culture, prison gangs, murders, relationships and other aspects of life when you are sentenced to “Hard Time”.

The Hazing of New Employees – A Lost Tradition

Up until the 1980's all companies would haze new employees. Today, we live in a world regulated by the government and policed by Human Resources. We forget how things used to be just a handful of decades ago. Here is my narrative when I started to work.

How to Build a Gallows and a Hangman's Noose

The United States is entering a period of strife. There will be violence. There will be discord and discomfort. It will be an ugly time. There will be winners and losers. It will be painful for the losers, and the victor will need build a gallows. This is how to do so and why it is needed.

The Ultimate Method to Make Your Computer Safe and Secure

The best way to make your computer secure and private is to have very strong encryption and use an obscure operating system that very few people know about. Here we look at 37 obscure computer operating systems.

Is America a Republic or is it a Democracy – What is it?

Here we take a nice good look at what the United States is today. We look at reports that are suggestive of other governmental organizations. We look at what is going on contemporaneously inside the United States, and we look at how the United States behaves globally.

The Many Things that Democrats want to Ban

This is a running list of the many things that American Democrats want to ban, have banned, or are trying to ban. You know, a ban of anything is a restriction on freedom. That is not what America was founded upon. Yet, here we are today. Everyday is a new ban, and loss of freedom.

Stories that Inspired Me

Here are reprints in full text of stories that inspired me, but that are nearly impossible to find in China. I place them here as sort of a personal library that I can use for inspiration. The reader is welcome to come and enjoy a read or two as well.

Robert Heinlein's "The Long Watch" – Full Text

What if you were in charge of all the nuclear weapons in the world, and your base Commander checks your political leanings to see if you are willing to conduct a coup d'état. What would you do? Would you go along with the opportunity, or would you be a lone hero?

Kaleidoscope (Full Text) A Story by Ray Bradbury

This is the full text of a short story by Ray Bradbury. It concerns the final moments of a crew of spacemen as they drift about in space helplessly after their space rocket explodes. They know that no one can help them as they await their final moments tumbling through space...

Here There Be Tygers by Ray Bradberry

When I was younger I used to read science fiction stories for pleasure. They filled my minds with adventure and passion. One of my favorite authors was Ray Bradberry and here is a complete reprint of one of the stories that has influenced me to be the man that I am today. Enjoy.

The Long Rain (Full Text) by Ray Bradberry

This is the full text of a most excellent science fiction story. It concerns a group of survivors from a crashed spaceship stranded on a Hellish rainy planet; the tropical cloud-covered Venus. They survive the crash, but have to battle the forces of nature and their own passions.

The Fog Horn (Full Text) by Ray Bradberry

Here is a story about the emotions of being the last of your kind. This story is one that influenced me when I was a young boy in the 1970's and continues to haunt me to this day. All of us are human. We all feel emotions and passions. They drive us to accomplish or destroy. It's our choice.

The Rocket (Full Text) A Story by Ray Bradberry

This is a nice short story about a poor man who dreamed about flying into space. No matter how hard he worked, and no matter how much he saved, he was never able to provide for that dream. Then one day, when he was asked to scrap a test rocket, a thought came to mind...

Dark They Were and Golden Eyed (Full Text) by Ray Bradbury

This is the complete short story by Ray Bradbury. It is a story about change and adaptation. I first read this story in my teens and it influenced me to live the life that I am currently living. It is a great read.

A Sound of Thunder (Full Text) A Story by Ray Bradbury

This is the full text of the great time-travel story by Ray Bradbury. Here, a time-travel machine is used to send people back in time to shoot a dinosaur. However, something goes wrong. What would you do? It's a classic story and well worth a read again.

The April Witch (Full Text) by Ray Bradbury

This is a story written by Ray Bradbury that describes what might happen when a young teenaged girl has the power to enter the body of another person. What if, forbidden to experience love and relationships with "normal" people, she uses magic to experience forbidden pleasures...
