This is a compilation of the many, many things that American Democrats (often radical totalitarian communists wearing the mantle of “progressive liberals”) want to ban. This is a running tabulated list that originated from an [earlier post](#) about busybodies. There, I argued that Social Justice Warriors (SJW) was just another name for a busybody.

This is a set aside list tabulated by request. It supersedes the extensive list on an [earlier post](#) about busybodies. Remember, boys and girls, all bans are a restriction on freedom. Go ahead and shake your head in disbelief. These people are friggin’ lunatics.

The first known democrats. Yup. They sure as heck wanted to ban fire. You know... for the children.

Hey, is it just me, but has anyone else noticed a trend here?

Busybodies do not realize who and what they are. They justify their behaviors by being righteous and just. They think that they are making the world a better place, and the threat they are contributing to society. When the fact is that that are doing none of these things. Instead their ego has taken over and deluded themselves to cover up the fact that they are just horrible, horrible people.

Busybodies always have a reason, a justification or a need to fulfill. When they are children, it is to show just who is better, stronger or more powerful. If they are smart, they become a “know-it-all”. If they aren’t, they become a bully. It is almost always associated with some emotional issue.

Today, as adults the motivations are not so clear and obvious. I personally think that it is more related to them coveting a new mansion or two, myself. Their excuses are pretty much predictable. “It’s for the children.”, or “It’s to put an end to racism.”, or it’s to “make the country safer”, or “it’s to end the divide between one group of the other”. Ugh! Nah. It’s all just bullshit excuses.

I am not the only one who noticed this.

“In fact, you probably did five illegal things before breakfast without having a clue about it, which you'll find out about the moment some liberal decides you have to be put in your place and looks for a way to do it. Liberals control what you eat, what clothes you wear, what TV you watch, what kind of car you drive, what

size soda you can drink, and even what toilet or light bulb you can use in your house. Complain about it and you're accused of wanting to end restaurant inspections and safety standards that prevent cars from exploding."

-[John Hawkins](#)

Even my father, who was a life-long staunch Democrat, questioned the actions of these radical progressives. Now that he is dead and buried, I am sure that he will still be voting Democrat, even though, his heart is no longer in it.

LOL!

The truth is plain as the nose on your face. They have no interests for anyone else except themselves. Someone gives them some money, and they use their power and influence to do their donor a favor (or two or three... [for a price.](#)) They come up with all kinds of reasons and excuses, but come on... please. It is obvious that they are just busybodies that have found a way to get rich being a stingy busybody. What a racket!

This is a funny meme that I found on the Internet. You know, it wouldn't be so funny, if it wasn't true. I think the reason why memes are so popular is that they inject humor into everyday situations that make us look at a given issue in a new light.

Taxes?

What they cannot ban, [they try to tax](#). There are so many examples of this.

Sound familiar? Yup, this is the democrat party today. They do need to be reigned in. We cannot allow mentally deranged people to control our society.

Some noteworthy examples...

- Tax on [video games](#) (1st person shooters)
- Tax on [men and male sperm](#)
- Tax on [toilet paper](#)
- Tax on [rain](#)
- Tax on [empty buildings](#)
- Tax on [soda](#)

Etc...etc...etc... And they keep getting more outrageous every single day... Check out this...

Castrate all men, seize their sperm and [tax them for being alive.](#)

Commentary

A story I've told many times:

A few years ago at a neighborhood gathering, I overheard a neighbor listing all the things she would ban (long list), and she would also force businesses to pay fair wages, and she would force rich people to pay more taxes, and on and on.

I moved up to the group and said, "Maybe people don't want that. There might be a lot of unintended consequences."

She spun around and saw me. *"You!" she said. "You're a Republican! You people just want to control everything!"*

I said, *"I'm a Conservative. I just want to be left alone. You, on the other hand, seem to have a VERY long list of things you want to control."*

She hasn't spoken to me since.

Take Aways

The Democrats in America really believe that they are better than everyone else. They want to force people to act and behave in the manners that they approve of. This is for selfish reasons ONLY. Oh, yes, they use excuses. Such as “for the children”, to “make America better and safer”, and for “Global Warming”. However, it’s all just excuses. They really do not care.

They just want to exercise POWER over others.

In lieu of that, they wish to personally profit from the changes that they implement. They are extraordinarily evil people. Don’t ya know.

This girl has just encountered a Democrat utopia. It is a place where everything is nice and tidy just like the rulers want. You, however, are just a lowly serf for the oligarchy. Sorry. I know it is heartbreaking knowing your position in life.

The Democrats' electoral strategy is very simple and straightforward:

- Identify an injustice or slight that has been perpetrated on a specific victim group
- Blame that injustice or slight on Republican policies
- Propose a free government handout program that will alleviate their hardship
- Show how the funding for that handout will come from raising taxes on white conservative "rich people" who don't deserve their ill-gotten financial fortunes anyway.

- Ban things as necessary to consolidate power.

The moral of the story: the sole reason we now suffer these ever-more-outrageous encroachments on our rights, our liberty, and our very lives from such obnoxious idiots is that, for far too long, they've been allowed to get away with it unscathed—the most important and telling word in the above headline is, after all, “SURPRISED.” I just bet they were, and why wouldn't they be? They've never had any of their own shit splashed back on them, by anybody. Not in many, many a year, they haven't. Our indulgence has only unleashed their demonic insanity.

Plus, being Leftists, they simply cannot stop themselves from using each unanswered infringement as a springboard for the next—an eternal escalation which is written into Progtrard DNA the world over. They cannot and will not be content until every dissenting voice is silenced, every dissenting opinion suppressed, and every dissident cowed, controlled, crushed. Maybe not even then, in truth.

All of which means that until we start seeing a lot more Lefty heads smashed with metal poles, strangled activists, and Leftists in high-speed car chases fleeing for their lives in leg-wetting terror, what we're going to keep seeing instead is more and worse nonsense from them. None of us are happy about this sorry state of affairs, nor should we be.

Being non-Leftists, all any of us Normals really want is to simply be left alone. But this is the corner they've forced us into just the same, and we're never, ever going to be *allowed* out of it. That corner is going to get smaller and smaller, drawing in on us all with every successive Leftard win, until there's no ground left for us to stand on at all. If we want out, we're going to have to *fight* our way out.

So be it, then. Those stout Spanish farmers, Argie cowboys, and Aussie BBQers have shown us the way. It's a pretty safe bet that the next larcenous “protest” held by pushy vegan “activists” will be a lot sparser attendance-wise; I expect the female Limey contingent in particular will find themselves with something a lot more pressing to do on that date next go-round. The farmers', cowboys', and BBQ fans' sterling example ought to be followed to the letter hereabouts, lest we soon find ourselves in a much worse fix than we already are—with a much longer, harder, and more desperate fight to get out of it on our hands.

The Original Post

This post was spawned off an earlier post about busybodies. You can read that very long and lengthy post [here](#)...

Democrat Busybodies and the Destruction of Freedom

Wouldn't life be wonderful if you could just be left alone and live your life in peace? I think so. The founders of the United States thought so, however there is an army of busybodies who disagree. They have this vision of utopia where everyone listens to their commands.

"Did you really think we want those laws observed? We want them to be broken. You'd better get it straight that it's not a bunch of boy scouts you're up against..."

We're after power and we mean it...

There's no way to rule innocent men. The only power any government has is the power to crack down on criminals.

Well, when there aren't enough criminals one makes them. One declares so many things to be a crime that it becomes impossible for men to live without breaking laws.

Who wants a nation of law-abiding citizens? What's there in that for anyone?

But just pass the kind of laws that can neither be observed nor enforced or objectively interpreted – and you create a nation of law-breakers – and then you cash in on guilt.

Now that's the system, Mr. Reardon, that's the game, and once you understand it, you'll be much easier to deal with."

Dr. Ferris from Atlas Shrugged

Democrats want to Ban (or Control) Everything

You know, how can I possibly write anything without offending someone? I really do not know if it is possible? Yet the truth is the truth.

- It was a Democrat who [banned Large size soda in New York](#). (A Democrat before becoming an "Independent" in order to get elected [Michael Bloomberg](#), and followed through by Democrat [Bill de Blasio](#).)
- It was a Democrat that [banned sunny-side-up eggs](#) in NJ.
- It was a Democrat who made it so that [everyone must wear seatbelts](#).
- It was a Democrat who made it so that [everyone must file taxes](#) in April. (The same date when sheep are fleeced for their wool.)
- It was a group of two Democrats that made sure [that Americans must pay Income tax](#) even if they live and work outside of the USA.
- Today it is a Democrat that wants to [ban motorcycles](#) (of all things).

What is their friggin' problem?

Well, there is [1] a part of me that wants to believe that they are well intentioned, but think that everyone else is stupid. That belief is one where they believe that they are better, smarter, and greater than everyone else. (Sound like an SJW? Hum?)

Then, [2] there is a part of me that believes the truth; that there is a money angle involved. Some business, or foreign nation, comes to the representative and pitches a new law or two. In exchange for the promotion of that law, the represent can get a huge sum of money. This sum of money might be public (like a campaign slush fund) or private (as in a brown bag full of cash). As time move on, I am more and more convinced that the reasoning is the latter.

Hey, I grew up in Pennsylvania, and the potholes in the roads are STILL not fixed. You think that it is a minor oversight? Why do you suppose that is the case? Do you think that graft doesn't exist?

China and America Comparisons

Democrat Busybodies and the Destruction of Freedom

Wouldn't life be wonderful if you could just be left alone and live your life in peace? I think so. The founders of the United States thought so, however there is an army of busybodies who disagree. They have this vision of utopia where everyone listens to their commands.

Comparison between American and Chinese Playgrounds

The differences between American and Chinese playgrounds couldn't be more telling. It is a tale of how things are handled differently and the roles that parents take. In China the role of the parent is to equip the child for life. While in America it is to protect the child from life.

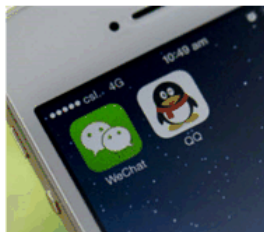

What Authentic Chinese Food is Like

The entire world feasts on “Chinese Food” served in “Chinese Restaurants”. This could be a Chinese take-out in Memphis, to a “Dim Sum” restaurant in NYC. As delicious as these establishments are, what is it like to eat real, Chinese food, in China? Well we talk about it right here.

The Last Straw – Why I Left America

We all come to cross-roads in our lives. We experience life in all of it's glory and pain. This is the story why I left the USA and moved to China. It's not that I hate the USA, I love it dearly and miss it terribly. However, a series of events and changes pushed me out. This is my story.

What happens when you try to implement Diversity Initiatives in China

This is a very good story in what happens when a young millennial tries to implement diversity initiatives in China. There are many lessons here. From how pompous SJW's are to misconceptions about what China is.

What High School taught me about Democracy

Yes, I know, the United states is supposed to be a Republic. However, running for president in school was set up as a Democracy with majority vote. I learned a lot about the follies of a Democracy and what eventually befalls it. I wish to share those experiences with you.

Why an American man should leave America and Travel

America is great. It is large and wonderful. However, we all need to set outside of it to really appreciate what we have, and to face what we do not have. Only then can we really understand where our problems originate from and how to resolve them

Top Ten Misconceptions that Americans have about China

There are many misconceptions about far-away places. China, due to it's size, and relative importance as a source of manufactured products is often the target of many a ill-defined comment. The disconnect between reality and perception is enormous. Here we discuss it.

The Top Ten Misconceptions Chinese have about the USA

When the Chinese come and visit the United States, they are often spellbound in shock and amazement. They find that they LOVE, absolutely L-O-V-E the United States. I have many friends who have told me this. Another thing that they have told me is that it was not what they expected.

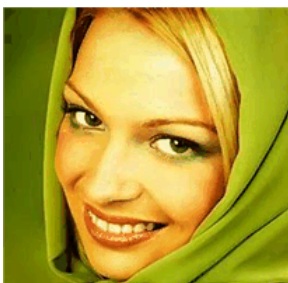

Comparisons Between American and Chinese Girls

Here we compare the differences in beauty between Chinese and American women. Since beauty is in the eye of the beholder, we spend some time looking at what makes women attractive to the opposite sex and why. Then we look at attractive girls comparatively.

Posts Regarding Life and Contentment

Here are some other similar posts on this venue. If you enjoyed this post, you might like these posts as well. These posts tend to discuss growing up in America. What it was like being a kid in the early 1970's

This is my narrative of what it was like growing up as a young teenager in 1971. This took place in the hills of Pennsylvania outside of Pittsburgh. I was 13 years old. I went to school, rode my bicycle around everywhere. I fished with my father, and watched television a lot.

The Fiasco of the Reengineering of the Common Tomato

This is the sad, sad story about how the wonderful and tasty tomato was reengineered to be "better". It was made better to ship. Better to sell. Better to store. However, there was one thing missing. No one paid any attention to taste, which is why it tastes like a cardboard shipping box today.

A Movie Tribute to the 1980's When Ronald Reagan Ran America.

Here we argue that movies reflect society when they were made. Today we see popular movies being remade as all female versions due to the progressive realities today. Likewise, the movies of the 1980s reflected the time when they were made as well.

Here we discuss what it was like growing up as a boy in the 1960's and the 1970's and the people, things, and adventures that inspired us. As such, we explore how the independence of growing up enabled us to cope through life when we got older.

The Importance of a Family Meal Together

There is nothing more important and satisfying than spending time together with friends and family and eating a meal together. It is a time of friendship, familial bonding and relaxation. Here we discuss what I have learned from my childhood and how I apply it today in my life.

The Pleasures of Fresh Baked Bread with Butter

One of the things that I have come to miss, since I moved to China, is fresh hard crusty rolls with full salted butter. The Chinese are not really fans of crusty bread. They like sweets and sponge cakes. Here I describe something that is close to me; not appreciating what you have right in front of you.

Learning during my 1970s High School years

Life Lessons from Working within the Corporate Dream – 2

This is part two of the two part section. There is quite a lot of information to impart. Stories are told, and experiences relayed. Honestly working in corporate America in the 1980's, through the new century really sucked. It was harsh on everyone except the owners of the companies.

How to Build Up Your Life from Nothing.

This is for all those young men who are just leaving school and trying hard to build up their life. You can do it. Here are my thoughts and advice for a young man who is encountering that most difficult of challenges; carving your life out in the wilds of the world.

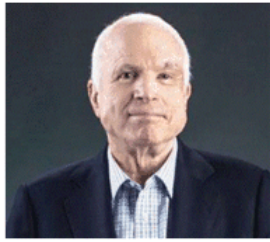

Allow your Children to Play and Grow (Part 1)

I am horrified, just horrified, that parents do not allow their children to play, roam and explore on their own. It has created a society of pampered fearful children. Here I discuss this in terms of what I know. This is very non-PC and might offend the more liberal readers out there.

Allow your Children to Play and Grow (Part 2)

This is the second part of my rant about permitting children to play, explore and have fun. Everyone, the odds that some stranger will abduct your child is very small. Most people who do this are family friends and neighbors. Stop being so fearful. It harms the development of your child.

Ode to Diabolical Cretin John McCain

Well, that evil son-of-a-bitch is finally dead. If his grave wasn't so far away, I go there and dance on top of it. This guy has spent his life backstabbing people, hurting people, concocting wars, and doing everything in his power to disrupt the lives of people. Good fucking riddance.

On Being an Older Gent

Here are my thoughts on growing old as a man. The truth is that the life that I expected to have as I was growing up never materialized. Instead, something else manifested. My life today is nothing compared to what I thought it would be. For my illusions were created by American media.

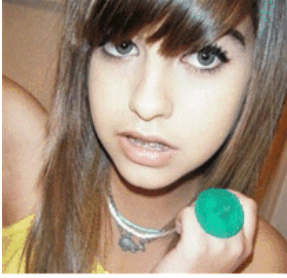

Calexit and the American Civil War

This is a pretty detailed look at the causes of the American civil war, and why it wasn't about slavery. We look at the rewriting of history by the internet, and the efforts that President Obama took to keep California intact so that the Democrats could maintain political power and control.

Why an American man should leave America and Travel

All people should get up off their duff and go forth and Travel. However, this is most especially true for American men. The United States has become a crucible of PC progressive realities that attack and depreciate American men. Go out, young man, see the world as it really is!

The Amazing Bremelanotide PT-141

Forget Viagra, and all those other ED medications. This is the real deal. This little baby causes humans to *go into heat*. It interacts with the brain and sets up feelings of intense arousal on both men and women. It turns people into 16 year olds. As such it is banned in the USA by the FDA.

Bronco Billy and the 25th Law of Power

Bronco Billy is a fictional movie starring Clint Eastwood. The movie depicts the life of a man who decides to change his life and go ahead and do what he has always dreamed of doing. He goes out and becomes his dream. There are lessons here for all of us, we only need listen.

The r/K Selection Theory applied to American Politics

The r/K theory is a pretty well-known theory on animal behavior. It simply states that animals behave as they need to based on the scarcity of resources. Here, we argue that it can be applied to why humans follow different political philosophies. Especially in American politics.

How they get away with it

Ten years ago, Bankers committed fraud in Wall Street that just about devastated the nation. Earlier, we had the S&L fiasco, the nightmare with penny stocks, and now the grand wholesale treason with the selling of Top Secrets to a foreign nation. This is how they get away with it.

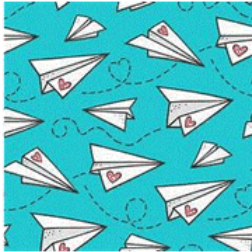

The Line in the Sand – Now What?

It's the same story. Just vote for us, and we will correct everything. Yet, nothing ever happens. You know, boys and girls, this old "song and dance" can only be maintained for so long. Eventually it will fractures, and people will no longer rely on elections to institute change...

The importance of having a second passport.

So President Trump is building a wall to protect Americans. Hum. Where have I heard that before? Oh yes, in Germany right when they were making the wall that separated Berlin. Walls serve two purposes; they keep people out, but they also keep people in. Be careful what you wish for.

Today America Taxes it's Expats without Representation.

This is a sad state of affairs. Americans who reside outside of the United States now have to pay American taxes, even though they have no representation in Congress. As I recall this was one of the reasons for the American cry for independence in 1776.
