

On Being an Older Gent – Metallicman

Once you get older, you change. Change is a continuous process, indeed. But age permits one the benefit of reflection. For the person that I am now is not the boy that grew up in Western Pennsylvania. My interests are quite different, and I am quite sure that I would be shocked and surprised at what I have become, and how my life is today.

My life today is nothing like I expected it would be...

Introduction

There are so many elements of this that it is difficult for me to adequately quantify.

I look back at my High School days and view many of the actions and activities that I participated in as very trivial. Yet at the same time, I see them all as necessary learning avenues to teach me about society and social interaction. I now see the importance in the creation of special events, and school get-togethers. While my interests were generational in scope, they still manifest today. They are just in different forms and shapes.

I look at the politics of today, and view them in terms of sentence selection. I do not view them in the “black and white” terms of my boyhood. This goes double for the American media narrative.

As such, I see that I have aged and matured.

My thoughts are no longer so pristine and “black and white”. My experiences have forged me into the person that I am today. You cannot take a person who spent their entire life in the black-negro ghettos of Chicago and expect them to walk into a directors meeting of a fortune 500 company.

Nor can you take a person who has lived their life uneducated, as a poor Muslim in the Sudan, and expect them to write the latest code and create a spectacular software program from it.

| Your actions and thoughts create your destiny.

As such, I am not going to get up and become an NFL star, a blonde female social activist, or a wild playboy like Hugh Hefner. It just isn't going to happen. Today I am the sum total of all my thoughts that I had during my entire life. I have created this world that I now live within.

Life is not a lottery that you win through the selection of a random number. The life you live is a consequence of your thoughts and your actions. Which means...

Our Life is up to Us to Configure

My life today is not at all what I thought it would be. For I thought and envisioned the kind of life that I saw on television and read in the Men's Magazines that I read growing up. Instead, it was something else.

It became what I thought about.

Now that I am older, and I don't have to deal with the corporate lifestyle, my life is slower. It is better. I can take my time and enjoy the finer things in life. I can smoke. I can drink. I can have massages. I can take naps. I can pursue my hobbies. I can eat the foods that I like.

What did I think about? What did I dwell upon?

Well, all through my younger years, and well into university, I dreamed and strove to be a "Rocket-man". I wanted to be a "Spaceman"; an Astronaut. I named my toys after space and future television shows. I had "Cosmos" who was a stuffed dog. I had a Naval Flight Helmet (old style) that I was given and wore everywhere. I wanted that life...

- I wanted to be with extraterrestrials.

- I wanted to be friends with them.
- I wanted to fly in the rocket-ships and visit their bases.
- I wanted to enter into airlocks.
- I wanted to be involved in great and important work that involved top secret equipment.

All of this happened, in one way or the other. Though none of it was how I pictured it to be.

Yeah. Welcome to the party. It's hard core. That's for damn sure.

There are readers that believe that they would behave differently than I have. Of course. We are all different. We all have different experiences and thoughts. I experienced my life because I had been working to it, and what I experienced was in direct proportion with my desire and goals. To this, I must say, to those who think that they would be different... Of course it would be different for you. You don't have the same kinds of thoughts that I have.

| What I experienced is a direct result of my thoughts.

These objectives also created downsides.

My Role was my Life

I joined MAJestic, but it was nothing like I thought it was. No, I did not strap myself into a rocket the size of the Empire States Building. No I did not go exploring the far off heavens. No, I was not rewarded with ticker-tape parades, buxom blonde beauty pageant winners, and given the key to the city. Nope. None of that happened.

Although, indeed, yes. I obtained what I wanted, deep down in my heart. It is just that it did not resemble anything like I thought it would. It was quite different.

- I did *actually* meet extraterrestrials.
- While not exactly "friends", I was entangled *intimately* with some of them.
- Though I never flew in a "Rocket-ship", I did utilize the same transport technique that they used to visit their bases and facilities.

- No, I never entered an “airlock”, however I did have many opportunities to egress from a Sally-Port.
- I was involved in important “Top Secret” work, that absolutely did involve advanced equipment.

Yet, somehow it wasn’t like I actually pictured it. It did not resemble anything that I thought it would be like.

What happened

Instead, my entire life was (somehow) scrambled and put into a different “artifice” (for lack of an appropriate word). From that “artifice” I was expected to live as a normal, average man. But I wasn’t. There was no way I was average. Not in what I had done to achieve my role, but also in what I had become.

I *had* be “normal”.

I had to live an average life, and while living it, my thoughts and impressions were transcribed to “others” to manipulate the MWI that I inhabited. Of course, it involved the MWI, and the very fabric of our reality.

In the end, all I can say is that had a role. I was a snow leopard who was told to wear fleece and mingle with the rest of the sheep. I was a something that had a role that no one could see. I was apparently quite important, but I and my actions and significance were completely invisible to mankind.

I lived a *typical* American life.

And...

It sucked. It really did.

I could not be special. I could NOT be special. By entering MAJestic I agreed to take on the role that was required of me. I had to participate in the kind of life that my fellow Americans were experiencing. I had to endure many layoffs and company restructurings, as my experiences HAD to be along the same line of the bulk of (American) humanity that I was representing.

What a friggin' life. To volunteer for a role where you would be a kind of Charlie Brown constantly dealing with a horrible Lucy . All for what? To monitor the Mandelbrot migrations of a constantly evolving MWI slide? It sucked.

So yes, I was the sad sack, the Charlie Brown boy who had to endure Lucy pulling away the football, over and over again. I was the boy who picked up the golf balls at a driving range, only that I had a big bulls-eye painted on my chest. I HAD to experience the changes in American society, so that the MWI could experience the corrective slides.

That's bad enough. In fact, it really sucked. But, that's not *all* there is to it.

I Was Retired from MAJestic

I also had to endure the retirement sequence, and all the horrible aspects of it. Yeah, after thirty years of being the designated MAJestic liaison for a group of interested "signifigants", I was retired.

Retired. I didn't even get a friggin' "thank you".

But you know, it was not MAJestic that processed me. They only retired me. What they did, of course was have someone else do the "heavy lifting". They went and utilized the state governments to take care of "my matter". They set the State Government to process me and put me into a monitoring program.

The Constitution's guarantee of a fair trial is disappearing.

"criminal defendants are being coerced to plead guilty," cautions the nonpartisan

National Association of Criminal Defense Lawyers.

“There is no more heart wrenching task than explaining” to an innocent person that “they must seriously consider pleading guilty or risk the utter devastation of the remainder of their life.”

- [New York Post](#)

You know, the state did not know my background. The state did not care. They just treated me like all the others in the state monitoring programs. I got no special treatment. Reports were drafted. Paperwork was filled out. Things were “rubber stamped”. I went through the entire procedure. It all looked so fair and proper...

MAJestic only cared that I be retired and put into a monitoring program “just in case”. I mean after all, “why take the chance”? Who knows what the (potentially dangerous) extraterrestrials might have “up their sleeve”?

It really sucked.

In the 1960's era television show titled "The Prisoner", a secret agent is retired by placing him on an isolated island. America does not have any islands that they retire their MAJestic agents to. Instead they put them into monitoring programs. There are only two monitoring programs in the United States. Both are run by the states. One [1] is the parole system. The other is [2] the Sex Offender program. The parole system has a finite duration, and cannot be extended. The Sex Offender program is far more comprehensive and can be extended indefinitely.

So I was retired from the organization. It hurt.

I am not going to pretty it all up. I was arrested, sentenced, promised a plea bargain, and then given a completely different sentence that we had agreed to. I was told by my attorney it was because “*it was political*”, whatever the heck that is supposed to mean.

So, I was retired by MAJestic.

Though as far as the rest of the country knew, MAJestic does not exist. There is no such things a extraterrestrials, and the American government does not have secrets, secret programs, or agents who participate in the programs. As far as the rest of the world is concerned, I was justly sentenced. I got my due. I was a terribly evil and bad man. I was a horrible person, one that needed to be isolated, secluded, avoided and made a pariah of.

I was a man who was “given his due”...

This was exactly what it was like for me. I did “Hard Time” in Arkansas. Photo is of ADC Cummins facility. Yup. We all did “Hard Time” in the hot and sweaty Arkansas sun. This was what was necessary to put me in a monitoring program that would track my actions, where I lived and what I would do. This is how MAJestic agents are retired. It is not pretty.

Now, there was a sort of freedom in being retired.

With the MAJestic set of probes disengaged, there was a kind of calmness and serenity that I hadn’t felt since I joined the program. Also, you adapt. It wasn’t a fun life, but then again, I *felt* like I was retired.

Of course only the MAJestic probes were retired. Not my extraterrestrial probes. They never shut off. They are always on. I am always connected to the MWI. Thus my situation

that I find myself in today.

- Retired from MAJestic.
- Still part of the MWI, forever entangled with my “*benefactors*”.

Yet, in the end, it all worked out. What was promised to me *materialized*.

Yet, in the end, it all fell into place

Now, today as an older man, I see how everything fit into place. I no longer have to kiss up to others to achieve my goals. (This not only includes bosses at companies, but attractive women as well.)

This is wholly satisfactory to me.

This is whether or not I am trying to have a relationship or sex with another girl and need to alter my behaviors to attract her, or whether I need to fit some corporate model and image to obtain work elsewhere. Maybe it is from what I have learned through experience, or maybe it is because some of the baggage associated with MAJestic has been turned off. What ever...

I am my own man. I now do things on my own terms.

While it might not be popular to be a white male in America during the Obama Presidency, I no longer care. I am who I am, and I am not going to apologize for it. If you don't like me, if you don't like what I have done, if you don't like what I wrote or how I wrote it, or if you are uncomfortable with my story... well that is fine.

I do not care.

I am a Man and I do not apologize for it

Gunny Highway is an ideal that has elements that all men should strive towards. Sometimes the fiction that we see can lead us into behavior ideals that we can adopt as our own.

Real men know exactly what I am writing about. It doesn't matter if the reader is a male from Los Angeles, Miami, or Memphis. All real men know exactly what I mean within the pages of this manuscript. A man is a man who is a Man.

I gave up political correctness when I became a man.

Prissy pussies apologize and carefully speak so as not to offend anyone. Real men say what they mean. They stand by their words, and are NOT afraid to speak their minds. Otherwise they aren't men at all.

Even though biologically they might have a penis, and wear male clothes, they are actually a woman or boy pretending to impersonate a man. Being a man is something that goes beyond dress. Being a man is an attitude.

Never forget that.

I am a simple man. I like pretty dark-haired women and breakfast food.

Men and women are both attracted to “manly” men. In fact, to the surprise of the American media, soft-feminine progressive liberal women are incredibly attracted to strong conservative men. Don’t believe me, go [HERE](#), [HERE](#) and [HERE](#).

“I don't know why I am attracted to Conservative/ politically incorrect men. I am a total social justice warrior and proud of that, buy I am attracted to the opposite of that. Is anyone else attracted to their political opposite? I have a fantasy of getting dominated by an extremely anti sjw white man. I guess I want to have sex with people I hate/ people who hate me.

...

I am too. I think it takes a lot of confidence to hold a political stance that is so unpopular in our current political environment. It has a "bad boy" element to it. That's totally something that appeals to me, for better or for worse.”

- [reddit](#)

It has nothing to do with politics, appearance, social-economic influences, money, power or position. It is all about attitude.

[via GIPHY](#)

Here is the *mechanism*. Pay attention, please.

Attitude is uniquely tied to ego. That should be obvious. With that well understood, note how thoughts and ego are interrelated. Ego is tied to thoughts, and thoughts create our reality.

A woman (or a man for that matter) who “hitches up” to a strong willful man with a strong attitude will see REALITY BEND and WORLD-LINES converge to meet the shared needs of their partnership.

That is **why**.

I know all of this, and because I see this and understand it, I control the world around me. I am in control. I do not need to alter my behavior to please or appease anyone.

A real man does manly things and does not apologize for it. He is strong. He does what needs to be done without complaining. We goes after his dream without stopping. He tries, and works and then redoubles his efforts. He provides for his family.

Being a man does not mean to take on the 2016 [stereotypical narrative](#) promulgated by the [American media](#). For that is a false narrative that has no basis in reality except to divide, ridicule and impugn. Rather, a man must maintain all his strengths with wisdom and concern for those around him.

Men are just as capable as women to nurture, support, and find friendships with others.

Men have emotions, feelings, strengths and weaknesses. Yet, if you follow the current American narrative, all men are a “joke” and totally unnecessary to raise children. In fact, according to many in America today, there needs to be steps taken to replace male dominance in the workplace.

This is often accomplished with “[diversity experts](#)”, who are more often than not, social justice minority lesbian women. Lord help the United States. It’s in for a tremendous upheaval.

Men are capable of compassion and understanding. We are capable of many things. However, do not cross us. A real man is not someone that you want to mess around with. We will give you our best, but if you are deserving, we will give you our worst.

A real man, of course, possesses an attitude, and is not afraid to show their strength when necessary. This can be in many forms, and is not limited to physical strength. Men have the ability to suppress, and control their emotions. Men can focus on one single thing to the exclusion of everything else. They can focus.

Women simply cannot. It is biological.

In short, let it be understood that men have abilities that are germane to their gender. Just like women also have abilities germane to their gender. Men can focus on things, plow through without the burden of emotion, and push against all odds. Women can nurture, have children, and raise a family. Both men and women have a role in our society.

Neither gender is better than the other. We are just different. That difference is wonderful.

Have I made myself clear?

Conclusions

When I came to China and started to live a more retiring life, I came to the understanding of how different my life was from what I expected. It occurred to me that my current life is the sum total of all the thoughts that I have ever had in the past.

This included such things as joining MAJestic, to what I ended up doing. It included such things as where I live and my lifestyle. It included everything about my life as I currently experience it.

As such, I have a message for the younger men out there...

Be good. Think good thoughts and do good deeds. Live your life on your terms. If you keep mindful and are focused they life that you desire in the deepest recesses of your heart will manifest for you. Just be in control of yourself. Be a man.

Take Aways

- The life that have in your reality is created by YOU.
- The only way out of a bad situation that you are in, is to change your thoughts immediately. Then have the discipline and the focus to work your way out.
- My life is the accumulated thoughts of my entire life.
- If you are good, you will end up with a good life.
- It seems like things are beyond our control, but that is only an illusion.

Inspiration

Find inspiration in everything that you do. What inspires you might not inspire someone else. Inspiration is a very personal thing.

That being said, for me, I find that Silenus and Dionysus represents my love of life. For those of you who don't know, in Greek mythology, Silenus (Greek: Seilenos) was a companion and tutor of the wine god Dionysus. You know, being the tutor for Dionysus is pretty cool. Eh?

He appeared together with satyrs and other creatures in the wine god's entourage, resembling a satyr, although, he was considerably older. The character Silenus ended up as a very special genre of figure creatures known as sileni.

It kind of explains why I live the life as I do...

Yes. Well there isDionysus cat!

FAQ

Q: Do extraterrestrials exist?

A: Yes they most certainly do. It's a pretty silly question, as we now know that we share this planet with many sentient animals, of which a number of them have complex brains and societies that we are just now beginning to understand. In the enormity of the universe it is absolutely crazy to hold on to the 1960's era belief that we are the sole intelligence in the universe.

While there are many who consider humans to be the top of societal evolution, we shouldn't neglect the fact that we share this world with dolphins. We have larger brains

than us. They have a language that they speak. They are also quite intelligent. While many consider humans to go back 10,000 years, dolphins go back 48 millions of years.

Don't you think that it is pretty arrogant of us to ignore the intelligence of dolphins that we share this planet with?

Q: How do you reconcile the bad times that you experienced?

A: I view them as lessons and experiences. I hope to learn from them, though it is sometimes a battle to keep positive and turn off the emotional connection to them. That being stated, it is also important to control the flow of news into your head. Most news, especially American news is designed to manipulate you. Do not let it. Manipulation takes the control of your life away from you.

Q: In what ways are the life you have now different from what you expected?

A: It is different in every conceivable way. From where I live, to what I eat. To who I know and how I am treated, to what I do for fun. To what my hobbies are to what I think is important.

MAJestic Related Posts – Training

These are posts and articles that revolve around how I was recruited for MAJestic and my training. Also discussed is the nature of secret programs. I really do not know why the organization was kept so secret. It really wasn't because of any kind of military concern, and the technologies were way too involved for any kind of information transfer. The only conclusion that I can come to is that we were obligated to maintain secrecy at the behalf of our extraterrestrial benefactors.

Probe Calibration and World-line Training (Part One)

Here is the story how the set of MAJestic probes, placed inside my skull, were calibrated. This took place after implantation, and involved calibration exercises at the Naval facility at China Lake in California. This is a two part post and discusses the facility and actions there.

Probe Calibration and World-line Training (Part Two)

This is the second portion of the two part post In this section we talk about how I was instructed in the operation of calibration of the probes and how I was provided with some limited knowledge in how to modify the programming. It wraps up with my exit from training.

How to tell if someone is in MAJestic (Part One)

There are many fakers out there. I really do not know what their motivations are. Some might actually have some experience, I don't know. None of them seems to have any kind of background that even approaches the membership I know of. This is how you can sort out the truth from lies.

How to tell if someone is in MAJestic (Part Two)

In this second part, we go into details on how the United States safeguards secrets. We talk about the MJ-12 disclosure and a historical overview of MAJestic. We also discuss the various reasons and restrictions that MAJestic is operating from. It's an important read.

Top Secrets and Flying Pigs

Here I try to explain how the Special Access Program works, and described how the most secret elements of those programs are kept waived and unacknowledged. I discuss why, and use the example of a fictional "Flying Pigs Program". To understand MAJestic, you need to read this.

The "Sales Pitch" Used to Ask Naval Aviators to Give Up Everything for MAJestic

This is a narrative on how I was offered the role within MAJestic. I was in training to be a Naval Aviator when I was called upon by the base commander. He asked me, and another AOCS, to join. This is how he convinced me.

Feducial Training of ELF-Based MWI Access

This is a small post about the training that we needed to learn into to enter into a transport mechanism for MWI access. You cannot access and switch world-lines without being able to access and “center” the implanted probes. This discusses this procedure and training.

MAJestic Mandated ELF-probe Implantation

This post goes into detail on how the first two “kits” of probes were implanted into my head. All of this procedure took place on the Naval base at the ELF substation. At the time, only myself and the other member of my “cell” aside from the Commander took part in this procedure.

My Very First MWI Portal Egress

This is a narrative of my very first experience in world-line travel. It happened immediately after I gave up flying as a Naval Aviator and joined the MAJestic organization. After training on feducials, and implantation, I joined a group of others and left our world-line.

MAJestic Mission Shut-down & Retirement

All programs must end. This is how members of MAJestic that have core kit #2 probes implanted are retired. As they all need to be retired in a specially equipped facility and subject to a life time of monitoring. We cover the entire process and what is involved.

What life is like inside the ADC Prison in Arkansas

This post discusses what life is like in a hard labor prison in Southern Arkansas. We discuss hoe squads, food, the hole, commissary, dress, fashion, homosexual culture, prison gangs, murders, relationships and other aspects of life when you are sentenced to “Hard Time”.

MAJestic Related Posts – Our Universe

These particular posts are concerned about the universe that we are all part of. Being entangled as I was, and involved in the crazy things that I was, I was given some insight.

This insight wasn't anything super special. Rather it offered me perception along with advantage. Here, I try to impart some of that knowledge through discussion.

Enjoy.

The Drake Equation as Viewed by MAJestic

Many people use the Drake Equation to figure out why the average person is not exposed to extraterrestrials. Yet, MAJestic members know the real reason. Here we review the variables within the equation relative to MAJestic understanding and discuss things relatively.

Our Galaxy as Presented to MAJestic

Here is a very general overview of the little that I know about our galaxy. It is a mixture of known and accepted science blended with what I was exposed to in MAJestic. Of course, what is presented is within the limits of what I understand, no more. So it is actually a rough outline.

Sirius is not the home of the Enlightened Extraterrestrials

There is a rather large number of “spiritualists” who are convinced that enlightened beings from the Sirius solar system have come to earth to teach and instruct us humans. I actually find it rather laughable. Here, I review what Sirius actually is and why no great enlightened beings live there.

The Alpha Centauri System

Here are my thoughts on the Alpha Centauri System. It is, as always, a mixture of conventional science and what I know through my relationship with MAJestic. Keep in mind, that I am a man with limits. It is but an overview, and what is presented might hold some surprises.

The Fuselage embedded within the rocks of Victoria Falls

There is evidence that there was an accident (of some sort) that damaged a vessel (of some type). Over the years it has become buried in silt, which later turned into stone. Here we study this issue.

The Hammer inside the Rock – The “London Hammer”

Here we have evidence of a shellfish dislodging apparatus or hand-tool that was abandoned millions of years ago. Here we study this artifice. We look at the manufacturing challenges in making such an object and study the environment in which it was lost.

The Hollow Moon

Why is the moon hollow? This is one of those uncomfortable facts that just doesn't jive up with the conventions of accepted scientific knowledge. Yet, every study has confirmed this to be the case. Here we study this issue in detail.

The Mystery of the Lapulapu Ridge

Deep down under the sea in the greatest depths of the Pacific ocean is a mobile underwater city. It's been operating there for many, many years. It has been leaving tracks and debris middens all over the place. Here, we look at this in some detail.

Mystery of the Baltic UFO

Sonar scans, and visual confirmation, indicates that a large disc shaped object skimmed the undersea world of the Baltic sea and crashed. Subsequent investigations were suppressed. Now, all that is available for study are a small pile of rocks. Let's look at this mystery shall we.

Mystery of the Bronze Bell found inside a block of coal.

A hand-bell made out of brass was discovered totally encased in a solid block of coal. What is so interesting about this bell is that it depicts a winged humanoid. The only thing is, the coal dates from a time long before birds, where only insects flew in the skies.

The Oil Lamp Discovered in a block of coal

Many things have been found encased within rock hard coal. One of which is a small “pot”. This is obviously the lower part of an oil lamp, common a few thousand years ago. The problem is what is it doing in millions of year old coal?

Did Extraterrestrials set up a colony in Pennsylvania?

Sounds really strange doesn't it? Well, here we talk about the possibility of a community of very “unique” red-skinned, horned giants, with firearms were actually a colony of extraterrestrials. It's a long stretch. Yet, we look at them from this prism, as unlikely as it is.

The Oxia Palus Facility.

Here we talk about a facility that I know a lot about. It is a MAJestic aligned facility on the surface of Mars in the Oxia Palus region. It is many things, and was initially a mining operation with a smelting and processing facility. Here we discuss this facility as an overview only.

Let's chat about Brown Dwarf solar systems

Up until a very few years ago, no one knew if Brown Dwarf stars existed. Now we know that they do indeed exist, and that they are everywhere. Most people are unaware of them, but they play an important role as these dwarf stars are the home of many an intelligent extraterrestrial.

NASA Manned Space Exploration - What happened?

When President killed the Apollo space program, and Jimmy Carter neutered NASA, everyone sat back, fat and content that money was not being wasted and that instead American infrastructure was being taken care of. Here is the real reason why Apollo and manned space died.

The Disclosure of the CARET Program at PACL

A full unapproved disclosure of a MAJestic related reverse engineering program was released to the public. It concerned the CARET program at PACL. It was quickly attacked and debunked. A music video was even generated as part of it. Here is the full documentation package.

The True Nature of the Universe

This is a discussion on the true nature of the universe and how individual realities fit within its' scope. I consider this an important writing and it acts as a "bridge" between the various "schools of thought" on the nature of our universe. What is presented is for your consideration.

Why our Understanding of Reality is False

Here we discuss four paradoxes of the second law of thermodynamics and use this as a springboard to illustrate that it is impossible to understand our reality within the MWI using Newtonian limitations placed on us through observation.

Evolution of the first sentient life on Earth.

Humans are not the first intelligent life on earth. There were many others. Here we discuss one of the first species of intelligent life; the Cephalopods. They have existed for hundreds of millions of years, and now exist as octopi that inhabit the oceans around us. Let's talk about them.

MAJestic Related Posts – World-Line Travel

These posts are related to "reality slides". Other more common terms are "world-line travel", or the MWI. What people fail to grasp is that when a person has the ability to slide into a different reality (pass into a different world-line), they are able to "touch" Heaven to some extent. Here are posts that cover this topic.

Some True Stories of Cat Heaven

Being in MAJestic taught me many things. One of which was an intimate understanding of Heaven and other “spiritual” things relative to quanta entanglements. Here I discuss what it is like to have a beloved animal (cat) dies and what actually happens to them and why.

Consciousness Migration for World-Line Travel

This post discusses how Heaven was formed, and what reality actually is. It discusses how world-lines function and just what MWI (Many Worlds Interpretation) is. This little post is the foundation of all aspects of my particular involvement with MAJestic. As such, it is important reading material.

What I miss from my original world-line

This is a little micro-post of some of the things that I miss from my time “before” I got involved with MAJestic and all that MWI “stuff”. It really makes no sense to anyone in this reality, but to me, it’s pretty important stuff. It’s simply a compilation of some of the quirks of this reality that are different to me.

An Observed World-Line Switch - The Aluminum Foil Lady

Here is a report of a person entering this “world-line”. She appears on a busy road and is filmed by an automobile dash cam in the process. She is wearing a protective thermal “space blanket” material coat, and is apparently dressed like a nun. We discuss her and the utility of roads in this context.

World-Line Travel Using Vehicles - Some Examples

There is ample evidence that people are entering and leaving our reality using various methods and techniques. One of which consists of vehicles with heavy devices that enable world-line cross-over events. Here we discuss these events and look at numerous examples.

A World-Line where the Beatles Never Broke Up

Here is a story about a man who ended up getting hurt and was rescued by someone from an alternative world-line. He tell his story and brings back a Beatles mix tape as proof. We discuss his adventure relative to MWI slides and look at commonality of descriptions.

World-Line Creation and Stability Considerations

Let's talk a little bit about what a world-line is, how it is accessed, and why it sometimes needs to be accessed. This isn't full of all kinds of stories about visiting different world-lines, but rather why certain advanced species use the MWI to control the sentience evolution of humans.

Cemeteries can tell us a lot about ourselves, our history, and our future. This is most especially true in regards to smaller and remote cemeteries located in the counties that surround us. This is my story about the impressions that my forays into these curiosities made upon me.

What it was like being a kid in the early 1970's

This is my narrative of what it was like growing up as a young teenager in 1971. This took place in the hills of Pennsylvania outside of Pittsburgh. I was 13 years old. I went to school, rode my bicycle around everywhere. I fished with my father, and watched television a lot.

The Fiasco of the Reengineering of the Common Tomato

This is the sad, sad story about how the wonderful and tasty tomato was reengineered to be "better". It was made better to ship. Better to sell. Better to store. However, there was one thing missing. No one paid any attention to taste, which is why it tastes like a cardboard shipping box today.

A Movie Tribute to the 1980's When Ronald Reagan Ran America.

Here we argue that movies reflect society when they were made. Today we see popular movies being remade as all female versions due to the progressive realities today. Likewise, the movies of the 1980s reflected the time when they were made as well.

Mad Scientist Explorations

Here we discuss what it was like growing up as a boy in the 1960's and the 1970's and the people, things, and adventures that inspired us. As such, we explore how the independence of growing up enabled us to cope through life when we got older.

The Gorilla Cage in the Basement

When I was a small boy, I used to play in the abandoned buildings nearby. Here is a story about one of the objects that lay hidden inside one of those buildings and the possible mysteries that it held. As a child we thought it was a gorilla cage, now as an adult, I am not so sure...

The Importance of a Family Meal Together

There is nothing more important and satisfying than spending time together with friends and family and eating a meal together. It is a time of friendship, familial bonding and relaxation. Here we discuss what I have learned from my childhood and how I apply it today in my life.

The Pleasures of Fresh Baked Bread with Butter

One of the things that I have come to miss, since I moved to China, is fresh hard crusty rolls with full salted butter. The Chinese are not really fans of crusty bread. They like sweets and sponge cakes. Here I describe something that is close to me; not appreciating what you have right in front of you.

What Work was Like in the 1960's and 1970's.

When people go to work today, they find that there are all kinds of rules and regulations. It is for diversity, safety, inclusion, and improvement in a new progressive world. Well, here is what work was like before it became a sterile progressive testing ground for the New World Order.

Learning during my 1970s High School years

Here is a pretty long post on what it was like to go to elementary school in the 1960's, and then attend high school in the 1970's. I graduated in 1977, and that my friend is exactly the target date for the famous movie "Dazed and Confused". Here is the real deal what it was like.

Some True Stories of Cat Heaven

Being in MAJestic taught me many things. One of which was an intimate understanding of Heaven and other "spiritual" things relative to quanta entanglements. Here I discuss what it is like to have a beloved animal (cat) dies and what actually happens to them and why.

Life Lessons from Working within the Corporate Dream – 1

After I was trained by MAJestic, I was left to fend for myself in Corporate America. It was a hellish existence. As such, I learned many lessons concerning behavior and the ultimate impact that it holds on our families, our friends, our loved ones, and our very lives. Here are my commentaries.

Life Lessons from Working within the Corporate Dream – 2

This is part two of the two part section. There is quite a lot of information to impart. Stories are told, and experiences relayed. Honestly working in corporate America in the 1980's, through the new century really sucked. It was harsh on everyone except the owners of the companies.

How to Build Up Your Life from Nothing.

This is for all those young men who are just leaving school and trying hard to build up their life. You can do it. Here are my thoughts and advice for a young man who is encountering that most difficult of challenges; carving your life out in the wilds of the world.

Allow your Children to Play and Grow (Part 1)

I am horrified, just horrified, that parents do not allow their children to play, roam and explore on their own. It has created a society of pampered fearful children. Here I discuss this in terms of what I know. This is very non-PC and might offend the more liberal readers out there.

Allow your Children to Play and Grow (Part 2)

This is the second part of my rant about permitting children to play, explore and have fun. Everyone, the odds that some stranger will abduct your child is very small. Most people who do this are family friends and neighbors. Stop being so fearful. It harms the development of your child.

Ode to Diabolical Cretin John McCain

Well, that evil son-of-a-bitch is finally dead. If his grave wasn't so far away, I go there and dance on top of it. This guy has spent his life backstabbing people, hurting people, concocting wars, and doing everything in his power to disrupt the lives of people. Good fucking riddance.

The Song "Baby Got Back" Translated into Latin

Here is a fun post. The song "Baby Got Back" is translated into Latin and then back again. I have to tell you that it is indeed hilarious. *Rebecca, ecce! tantae clunes isti sunt!* (Rebecca, behold! Such large buttocks she has!) Anyways, it's just all fun and games. Enjoy.

Every Man Should Have a Roll-Top Desk

It's true, and I discuss why. A roll-top desk is made for the person who accumulates the clutter of the road as they forge their way through life. The desk becomes a symbol and a place for a man's privacy. It is a place where he has control over his life, and a place to store his treasures.

Why Women Need their own Personal Makeup Vanity Space

I am a strong believer that everyone needs privacy and a personal space to call their own. In this post I discuss the need for a woman to have a vanity and why it is important for a woman to spend time using it. Everyone, regardless of their situation, needs a place that is all theirs and theirs alone.

What the Progressive Liberals have in store for Conservatives

The progressive socialists, who now go under the name of "Liberals", have plans on the consolidation of their power and control. This is what their ultimate plans are. It does not bode well for traditional American values, Rights, the Constitution, or history. It's going to be a dangerous time.

The Warning Signs that Government Collapse is Imminent

All nations go through cycles. They do so, and when they mature they evolve into other governmental forms. The United States is long overdue for a change; a reset. Now, while this will occur, it is unknown how severe it would be. Here are my thoughts on this issue and some warnings.

Democrat Busybodies and the Destruction of Freedom

Wouldn't life be wonderful if you could just be left alone and live your life in peace? I think so. The founders of the United States thought so, however there is an army of busybodies who disagree. They have this vision of utopia where everyone listens to their commands.

Adventures of a 70's Kid in an Army And Navy Store

Here we look at what adventures an Army and Navy store could hold for the inquisitive child. We talk about the history and the inherent adventures that lay hidden in dusty boxes, and dark corners. We narrate the exploration through the eyes of nostalgia. It's a pleasant excursion.

Comparison between American and Chinese Playgrounds

The differences between American and Chinese playgrounds couldn't be more telling. It is a tale of how things are handled differently and the roles that parents take. In China the role of the parent is to equip the child for life. While in America it is to protect the child from life.

Excuses We Use That Keep Us Enslaved

Here we look at what an American *actually* is. For the argument made here is that citizenship in the United States is not what qualifies a person to be an "American". Rather it is the way a person thinks, the way they act, and their general philosophy in life. For not everyone is an American.

More Posts about Life

I have broken apart some other posts. They can best be classified about one's actions as they contribute to happiness and life. They are a *little different*, in subtle ways.

On Being an Older Gent

Here are my thoughts on growing old as a man. The truth is that the life that I expected to have as I was growing up never materialized. Instead, something else manifested. My life today is nothing compared to what I thought it would be. For my illusions were created by American media.

Be Who You Are

All our lives we are told who to be, what to do, what career to take. Our religion, our work, our schools, our government, and our loved ones all tell us what we need to do. Here, I tell you the opposite. Stop allowing others to tell you what to do. You know what you need inside of you.

Calexit and the American Civil War

This is a pretty detailed look at the causes of the American civil war, and why it wasn't about slavery. We look at the rewriting of history by the internet, and the efforts that President Obama took to keep California intact so that the Democrats could maintain political power and control.

Why an American man should leave America and Travel

All people should get up off their duff and go forth and Travel. However, this is most especially true for American men. The United States has become a crucible of PC progressive realities that attack and depreciate American men. Go out, young man, see the world as it really is!

The Amazing Bremelanotide PT-141

Forget Viagra, and all those other ED medications. This is the real deal. This little baby causes humans to *go into heat*. It interacts with the brain and sets up feelings of intense arousal on both men and women. It turns people into 16 year olds. As such it is banned in the USA by the FDA.

Bronco Billy and the 25th Law of Power

Bronco Billy is a fictional movie starring Clint Eastwood. The movie depicts the life of a man who decides to change his life and go ahead and do what he has always dreamed of doing. He goes out and becomes his dream. There are lessons here for all of us, we only need listen.

The r/K Selection Theory applied to American Politics

The r/K theory is a pretty well-known theory on animal behavior. It simply states that animals behave as they need to based on the scarcity of resources. Here, we argue that it can be applied to why humans follow different political philosophies. Especially in American politics.

How they get away with it

Ten years ago, Bankers committed fraud in Wall Street that just about devastated the nation. Earlier, we had the S&L fiasco, the nightmare with penny stocks, and now the grand wholesale treason with the selling of Top Secrets to a foreign nation. This is how they get away with it.

The Line in the Sand – Now What?

It's the same story. Just vote for us, and we will correct everything. Yet, nothing ever happens. You know, boys and girls, this old "song and dance" can only be maintained for so long. Eventually it will fracture, and people will no longer rely on elections to institute change...

The importance of having a second passport.

So President Trump is building a wall to protect Americans. Hum. Where have I heard that before? Oh yes, in Germany right when they were making the wall that separated Berlin. Walls serve two purposes; they keep people out, but they also keep people in. Be careful what you wish for.

How Rocket Scientists Build Paper Airplanes

This is a tale of what me and my classmates used to do when we were young Aerospace Engineering students at the university. We would design paper airplanes and shoot them down with bottle rockets. Here is just a fun little exercise down "memory lane". Enjoy.

What is Snopes.com and can it be Trusted?

Snopes is a “fact check” website that is fully funded by the oligarchy. It is used to “shout down” any narratives that does not support the rich and powerful, and politically connected globally. Here we discuss the organization, who they are and what they represent.

Today America Taxes it's Expats without Representation.

This is a sad state of affairs. Americans who reside outside of the United States now have to pay American taxes, even though they have no representation in Congress. As I recall this was one of the reasons for the American cry for independence in 1776.

What life is like inside the ADC Prison in Arkansas

The Hazing of New Employees – A Lost Tradition

Up until the 1980's all companies would haze new employees. Today, we live in a world regulated by the government and policed by Human Resources. We forget how things used to be just a handful of decades ago. Here is my narrative when I started to work.

How to Build a Gallows and a Hangman's Noose

The United States is entering a period of strife. There will be violence. There will be discord and discomfort. It will be an ugly time. There will be winners and losers. It will be painful for the losers, and the victor will need build a gallows. This is how to do so and why it is needed.

Some things that need to be changed for America to be the “Land of the Free” again.

This is a running list of the many things that American Democrats want to ban, have banned, or are trying to ban. You know, a ban of anything is a restriction on freedom. That is not what America was founded upon. Yet, here we are today. Everyday is a new ban, and loss of freedom.

Nations that an American Man could Travel and Relocate

to – Part 1 Here, I suggest places where an American man could go if he wanted to start all over again. You know, this happens. Often a man will go through a nasty divorce, or get raked over the coals by a business associate or the United States government. When it happens, it's time to start new.

Nations that an American Man could Travel and Relocate to – Part 2 Here, I suggest places where an American man could go if he wanted to start all over again. You know, this happens. Often a man will go through a nasty divorce, or get raked over the coals by a business associate or the United States government. When it happens, it's time to start new.

Alternative Search Engines instead of Google

Google does two things that I do not like. Firstly, they vacuum up everything you do and send the information straight to the American deep state; the NSA and DHS. Secondly, they censor your results for you according to what they think you should see. Here we look at alternatives.

The Consequences of the #MeToo Movement

While the #MeToo movement burst forth onto American culture with good intentions, it was soon coopted by those with selfish and sinister intent. The aggressive nature of the accusations, and the consequences of being accused became dangerous. Here we look at the corporate aspect.

The Lies the Media Tell Us

What High School Taught me About Democracy

America was formed as a Republic. Yet, for many decades we were brought up in the notion that the United States is the greatest "Democracy" in the history of the world. I have my own opinions about that. Democracy is "mob rule". Let's talk about it from what I learned in my High School.
