

An Observed World Line Switch – The Aluminum Foil Lady

 metallicman.com/laoban4site/an-observed-world-line-switch-the-aluminum-foil-lady

congjiing yu

August 22, 2018

Let's spend a short moment looking at an observed world-line switch. Here, a woman exits one world-line and appears in ours. She is wearing a thermal coat / blanket, of the type that looks like aluminum foil. The [MWI](#) can be traversed in many, many ways and

methods. Let's take a look at what was observed and discuss it based on what I know from my experiences within MAJestic...

Introduction

Here, let me spend a precious small amount of time to discuss very, very briefly something that I am *well versed* in. While, in other posts, I have mentioned some of my training, and some of what I know about the universe and our reality. I have also covered some things about our non-physical reality. Let's talk about a specific event that was caught on camera and observed, via the internet, around the world.

But first, let's lay out some ground rules.

- The [MWI](#) is real. There are alternative "world-lines" and other realities.
- Contrary to what impression that you might have from Hollywood, we do not live on a "world-line" we occupy a "bubble of reality". Sorry "Doc Brown"...
- Once we are in that "bubble", we can alter it and change it by our actions as well as by our thoughts. We have this ability through physical action, and thought.
- There are many different techniques for changing your reality. I know specifically of four...

These are;

1. **Simple changes** to your reality. This can be accomplished by the power of intention or prayer. Not to mention the obvious changes by physical action.
2. Large scale changes that require **fixed machinery** and devices to manifest. These are used to transport not only into a different reality, but also to a different geographical region. In this kind of alterations, time and geographic location can be changed.
3. Large scale changes that can utilize **portable devices** to manifest. This can be in the form of large and heavy devices, and also in the form of much smaller device, depending on the technology of the user species.
4. Changes to both the physical and non-physical realities by "**piggy-backing**" onto an entity with the inherent ability to conduct world-line travel via the MWI.

This is pretty "off the wall" stuff for casual reading, and not really something that you would find on most conspiracy websites. That's fine with me. This is the real deal. Read it or not. I just don't care.

Here we are going to discuss an observed [MWI](#) slide, or world-line switch (if you prefer) that took place in Russia on a highway. While I do not know of the *specific* method used, I personally tend to believe that it involved #2 above.

In the movie "Back to the Future II", a mad scientist named Doc Brown invented a time travel machine out of a Delorian. Here he explains that happens to a "world-line" when you alter the past. Since that movie, many people are under the incorrect impression that we all live on fated "world-lines". We do not. We live with individual bubbles of reality that are constantly changing and evolving by our own thoughts and the thoughts and actions of those around us.

Travel by Intention

As I have just stated, there are four different ways (that I know of) to traverse the various realities that we can inhabit. The first and time-honored method is to make "slight" changes to our reality. We can do this by taking control of our physical world. This is the realm of (concentrated and directed) *prayer*. This is the world of "*Intention*". By controlling your thoughts, you can control the direction of your life.

The Rice Experiment opened more than a few teenage eyes on how their words and intentions impact their environment. Hopefully, the lesson will translate into their homes and future workplaces. The middle school teens conducted the Rice Experiment. After cooking a pot of rice, they placed a scoop of rice into separate, identical jars and sealed the lids. On the outside of one jar, they wrote "LOVE" while on the other jar they wrote, "HATE." For the next week, they talked to the jars filling the LOVE jar with kind, loving, compassionate intentions and thoughts. They told the HATE jar it was stupid, ugly, mean and nasty. Then, they watched the results. A year later, these same jars sit on the shelf of our teen room, telling the story of our intentions. The LOVE jar, filled with our divine, loving intentions, remains filled with white fluffy rice. The HATE jar started decomposing right away and quickly turned into a grey, slimy sludge. No kidding. Credit to [HERE](#).

Travel by Portal

There are other techniques. These other techniques are more in-line with science fiction and Hollywood. In fact, my very first experience in MAJestic utilized such a device. Here we have a device that can open up a "space" or a "portal" that one can walk into. Once you enter that portal you can be transported to [1] other geographic locations, [2] other realities, and [3] other times.

This device uses the [MWI](#), multiple world realities, to transport a person from one place to another. Imagine a device that can traverse the MWI, but one that is utilized towards moving things to other "world-lines" with little deviance. The resultant and only change might be geographic. Thus you could use this device to take you from New York City to Pluto, if you wanted.

Pretty cool. Sort of like the movie "Stargate SG1".

The only thing is that when you travel you have to be very careful how you travel.

If you are not careful, you might end up in a different geographic region AND with a *different* history. The device alters everything. So you must be extremely careful on what you are doing. When you enter such a machine, you will need to be exactly calibrated to make sure that where you are going is where you will actually end up.

The Hollywood movie, and later, the television series, depicted the use of a gate; a "star gate" that our heroes can use to travel the universe. Of course, since this is Hollywood, there are all sorts of cool special effects and a nice water shimmering effect. In reality none of that is present. You just simply walk into absolutely nothing.

Which is sort of the reason why I, and the girls, had to fill out that detailed questionnaire at the ELF portal at NAMI. (More about that later on in a different post.)

If you are not careful, you could end up in a (so called) "parallel world" that has some serious differences from the world reality that you departed from. here we have a scene (a very famous scene) from the television show Star Trek where our heroes are thrown into a "Parallel world" where they were very uncomfortable in. Sort of how I miss baked beans with my breakfast eggs. On this "world line" it's all about potatoes with eggs.

Travel by Vehicle / Self

If you had the proper technology, you could miniaturize the equipment that you would use to conduct the MWI slide. You could put it in a vehicle and drive on the roads. Provided that you are not conducting great deviations, any MWI slides would be safe on a road.

Depending on the length of time that that road existed, often hundreds of years, you would be safe on it. The odds of hitting another car, even on a busy road would be small.

That is to say, there won't be a tree, a building or some obstruction in your way. The land beside a road is often chaotic. You have trees growing and dying over time. You have fields appearing, and disappearing. You have buildings sprouting up and falling into decay. Not so with a road.

The chances would be that the road would be mostly clear... though there would always be a chance of an accident by other vehicles moving within the destination reality.

The John Titor saga revolves round an individual who claimed that he was able to conduct dimensional reality slides through use of a device that he carried inside of his vehicle. The device not only permitted time travel, but carried with it a risk of dimensional variation.

Travel by “Piggy Back”

Here is what I am most familiar with. While MAJestic has been very involved with a specific extraterrestrial benefactor (notably the infamous “greys” found so ubiquitously in popular culture), my involvement has been associated with them only *tangentially*.

I say this two times. I have been associated with them ONLY during [1] my training and [2] implantation “off-world”. After that, I have had no association with them.

[via GIPHY](#)

Instead of working with them on various MAJestic projects, they had a different role for me. Their role, as far as I am concerned, was very limited. In it, they helped implant a device that originated from a different secondary species into my skull.

To repeat. My other implants; my extraterrestrial implants, originate from a *different* extraterrestrial species. They do not originate from the “grey” extraterrestrial species. The “grey” extraterrestrials only installed them within my skull.

[via GIPHY](#)

This device has many functions, but fundamentally it connects me directly to a (censored) reality of that particular secondary species. It connects to them in specific ways, and offers two-way communication.

However there are many limitations from my point of view. For instance, certain experiences are beyond the ability of my mind to comprehend. there are also “closed off” and restricted features & functions. Not to mention, that they control my entire access to it. It is all at the pleasure of that species.

| I have no control over any of it. Absolutely zero control.

This species is much older than those (numerous, FYI) that we have been working with. It is an invertebrate species with a very, very different understanding and (ability to sense) reality than we could ever conceive of.

Since I am so tethered, I can be considered to have some shared experiences and shared realities of the parent species. As they can migrate through the MWI, I can too participate in a limited way *with their approval*. As they can experience the various realities of "Heaven", then I too can be made aware of their experiences to a *very controlled* level of participation.

The reader should not get too excited. It's like a watch dog who their entire life only ate dry dog food. One day, he is given the job of guarding the door to the kitchen. The cook decides to open the door to the kitchen, but the dog is forbidden to enter. However, he was permitted to smell the scents coming from a gourmet kitchen. It doesn't mean that it can go inside and eat it's fill. It just means that if the cooks and chefs felt there was a need or benefit they might toss a scrap or two to the watch dog.

My entanglement was exactly like that.

I performed a service that this extraterrestrial species wanted. In exchange, I was able to have some perceptions and minor experiences. Now, for some reason, as part of *their* prerogative I am permitted to relate certain perceptions to my fellow humans. I believe that this helps further their objectives. Though I cannot fully understand how.

Anyways, back to the sliding in and out of the MWI...

When you are "piggy backed" to a species that does this MWI slide naturally, you get to experience it as well. They think nothing of it. It is normal to them. It is something that they did ever since they were a little tiny harvested larva. But to us, who have never experienced this, it is strange and beyond our comprehension.

It took me some training to get

used to it. Though the staff at the [ELF facility at China Lake](#) absolutely had no idea what it was like for me going through the various 'exercises'. They just read through the printed out instructions, and I followed their guidelines and script.

They would say something like "depress the half circle", and I would do it with my mind while sitting in the chair. An observer would see nothing. I would then confirm that I did it, and then they would read something else...

Just because the dog can now be allowed in the kitchen, it does not mean that they will be permitted to eat and taste everything that they smell. Certainly some things will smell delicious. Other things, like maybe celery, not as pleasant. It is up to the chef to decide what to give the dog, and how much and when. Otherwise there is a great risk of the dog eating something bad... like an entire jar of mustard. (Which actually happened when I lived in Arkansas. The dog jumped up on the table, knocked off a big jar of yellow mustard and ate the entire thing while I was sleeping. When I woke up the next day yellow diarrhea dog shit was everywhere, and I do mean everywhere!) Anyways, Piggy backing with an extraterrestrial benefactor species is exactly like that. They know what is safe and what is dangerous. We haven't a clue.

Various military personnel reviewing project performance and testing at China Lake naval Weapons Center. For me, in my carve-out under MAJestic, the access was heavily restricted. Those who participated and knew of Sebastian and my training were very small in number and limited.

The Event

With all that introductory information out of the way, let's talk about the "mystery in Russia". Here we have a woman who just appeared out of "nowhere" in the middle of a busy road. Her appearance was captured on the dash cam of the trailing vehicle.

And...

I want to talk about it relative to what I know, and speculate on what is going on and why.

This example, this observed event, comes from the dash cam on a car as it moves along a highway in a semi-rural section of the country. The video claims that this was filmed in Russia, but given the environment could have been filmed anywhere.

Here is a very interesting teleportation event. It is unique because not only does she "pop" into reality, but there is apparently a "force bubble" that surrounds her that pushes a moving truck out of the way. She calmly walks off the road. She is observed wearing a thermal blanket and is otherwise a "normal" and "boring" person. Again, she is neither overly attractive, youthful or wearing colorful clothing. She is bland, and materializes in the middle of a flat boring section of the countryside.

In the labeled frames, one can see the truck being pushed out of the way to the left by some kind of force, or force bubble in frame 0013. In that frame, there is no woman at all. In the next frame 0014, the truck "rides" along the bubble and again, there is no woman at all.

Woman in a foil blanket or covering materializes at the side of a busy road (highway) somewhere in Russia. These images are screen captures from a video that was obtained from a dash cam in a vehicle in Russia.

Suddenly in frame 0015, the woman "pop's" into reality.

She just calmly starts to walk to the side of the road, as if nothing has happened. Indeed, if it were me, I would be totally shaken and run to the side of the road. That is not what she does. She just calmly walks to the edge.

In frame 0019, she is seen walking off the road.

In frame 0021, you get a better view of her. Her hair is cut short and at neck level. Her face is indeterminate. She is wearing a thermal foil blanket or coat that goes to her knees. Her hands appear to be in her pockets. She seems to be wearing black leggings or socks and flat normal shoes. Not high heels. A close up of the foil coat is obvious in frames 0022, and 0023. In addition, the coat is made out of foil of some type.

I can't help but remember a scene from the television show "Better call Saul" where Saul's brother was afraid of light and wore the thermal blanket to protect him from radiation.

This specific event can be viewed on the following video. Please note that this video has other examples of fakes and hoaxes interspersed in it. Also the voice over and music track leaves much to be desired. Please **turn off the audio** and watch the video free of "Halloween style" or "B-grade movie" music.

This woman reminds me of the "space blanket" or "survival blanket" that was used in the television show "Better call Saul". There is only one thing, in this reality THERE ARE NO FOIL COATS made out of this material. Only blankets are made out of this material.

https://www.youtube.com/watch?v=M_HwLws9b1g&feature=youtu.be

Watch from 4:08 to approximately 4:32.

An important note is that this exact type of coat; one made out of space blanket material (Mylar Thermal Blankets) is not available anywhere, in any nation, in this world line. While there are those that are similar, none are an exact match for the one that this woman is wearing. The closest that I could find were;

- [Mylar thermal jacket on Amazon.com](#)
- [Mylar thermal jacket on Alibaba.com](#)

The version on Amazon, shown below is a close match. However, there are no jackets that are thermal nylon material with a reflective surface that goes down to the knees, comes in a woman's size, has a side slit, and does NOT come with a hood. This woman's jacket is completely unique.

Reflective foil nylon / Mylar jacket that is commercially available on the internet. Note that this comes with a hood, and is of short length. The one used by the woman has no hood, is knee length, comes in a woman's size and has a slit up the side.

About the Jacket

Why would someone need to wear such a jacket?

Well there are many reasons. First off, let me posit to the reader that there are many ways and different kinds of technologies that one can use to do things. All the reverse engineering efforts of the 1950's to today clearly indicate a great diverse spectrum of technology and ways to accomplish similar tasks. Different species use different technologies, at different levels of advancement. Different variations of a species also have different kinds and levels of technologies as well.

There is a saying in China; "There are many ways to get to Beijing."

What it means is that you can have different methods and ways to achieve the same goal. If you have a lot of money, and you need to get there quickly, then a private jet is possible. If you have money, and need to get there in a day, an airline is a possibility. Alternatively you can take a high-speed train, a train, a bus, a shuttle, a car rental, a ride-share, or even a donkey cart. It all depends on your knowledge, and your resources at the time.

In a like way, depending on the technology to slide through the MWI, you might need protection.

According to [John Tutor](#), he claimed that if you crossed the MWI using the technology at his disposal, there would be a short and brief exposure to some extreme radiation. If this woman is using a similar technology, then she would need a coat or protective attire to reflect any burst of radiation. Excessive radiation is very bad for you.

Now, in all the cases of the technology that I have used, not one of them experienced a burst of radiation of any type that I am aware of. To elaborate;

- When you use prayer or intention, the effects as subtle and manifest over swaths of time.
- When you enter a fixed portal, it is as if you are just walking into nothing. Though there is a feeling as if you were walking through a waterfall. And for a few seconds later you would feel soaking wet.
- When you "piggy back" there is no effect. Not even a shimmer. Things just look slightly different.

Why on a road?

While my personal experience NEVER required a road, I am aware that there are technologies that are used to travel along the time vector that DOES require a road. Anyone who wishes to use the MWI to travel through time needs to have exact coordinates. Both spatially and in regards to the person traveling.

Roads last for decades, even centuries.

For instance, let's suppose you wanted to do some kind of time travel in the Boston area. You could travel on the interstate I-90. This means that you could go back in time to when I-90 was first made. Possibly that would take you to 1956. Yet, even before the highway came into existence, it was a road, and an early dirt road as far back as 1900.

How long do you, the reader, think that I-90 will exist for? Another five years, 20 years, maybe 100 years? If you consider that it might last until the year 2100, then a time traveler would have a 200 year wide "window" from which to explore and take care of their business with.

Now, all this is very interesting...

But, aside from just a few very, very sanitized instances, my own time travel events were limited. There just wasn't any need for them in my role. I was doing other things in regards to human sentience and social observation. So, it is beyond my understanding WHY anyone would NEED to travel through time. Isn't this reality good enough for ya?

Anyways, I have various examples of cars disappearing and reappearing on roads. I have examples of cars appearing out of the blue in cross roads and getting into accidents. I have other examples of people appearing out of the blue on the side of the road and getting hit. I will post these examples later.

Given the large number of examples, we can conclude the following...

- There are numerous people / civilizations / species / societies that utilize roads to egress from a MWI event.
- The need to travel through time as a destination vector is deemed (by some) to be important.
- Accidents can and do happen when this technology is utilized.

Her Dress

If I were to travel as a time traveler, I would wear the clothes of my destination era. If I were to visit medieval England, then I must dress as a wealthy merchant, or commoner. Which ever venue would attract the least amount of notoriety. If I were to travel back to 1960, what would I dress as?

- A beatnick
- A hip teenager
- A working man
- A rich businessman
- A police man

The answer is that I would dress as unassuming as possible. I would dress as common and plain as possible. I would dress as an "average Joe". That's what I would disguise myself as.

But...

But, what if you don't have that kind of control in your time vector? What if the technology and the dispatch and arrival coordinates are not so precise? What are you going to do then? What if there is a wide variance in dates of arrival. What if you could enter a given reality ("world line") anywhere from 1930 to 2010? How would you dress?

Think about it.

If you were going into the past, you most certainly wouldn't have any tattoos, or large piercings. Your hair would be cut in a conventional style. What you carried on with you would be plain and unassuming. If you wore glasses or spectacles, you might be wearing contacts or have Lasik eye surgery.

The American interstate system showing the entire length of the I-90 roadway.

If you were a woman, you might dress in some clothes that hasn't changed much in that stretch of time. You might dress as a Mennonite (provided that you could speak their dialect and know their culture), or you could dress in something more conventional. You could dress as a nun in a Christian order. There, the clothes are pretty standardized and hasn't change much in decades.

If you look closely at the woman's shoes, and sock, and hair style, it looks EXACTLY like the image that she is trying to portray.

Here is the typical attire of a Christian nun. Note that the only portion of the "lady in foil" that we could see were her legs. In my mind they look suspiciously in alignment with the uniform of Christian nuns throughout the world. This includes the clunky black shoes and the black stockings. Were she to remove her foil coat, my guess would be that she was wearing black, and would have no problem fitting in society as a nun.

MWI and not an Invisible vehicle?

One of the arguments is that perhaps this woman is not utilizing MWI or some elements of "time travel". Instead, the argument goes, she is egressing from an invisible vehicle.

This is certainly possible, as it seems to be common knowledge that many of our extraterrestrial friends can make themselves and their vehicles invisible. It has to do with the light cones that are within our eyes. By manipulating the radiation that surrounds something you can trick the light cones from not seeing anything. Since different species have different biology, the eyes cones can be species determinant.

A fun example of this is in the Star Trek movie titled "Star Trek IV – The Voyage Home". In the movie, the character utilize a captured Klingon space vessel that has "cloaking" ability. The characters use this ability to hide the spaceship in plain sight in the middle of a park in San Francisco. Then they fly away and materializes directly above a whaling vessel.

All creatures that have eyes also have the internal biology to interpret the light that they view. This is accomplished through the geometry and biology of the light cones and rods that act as receptors of radiation. The technology that I am familiar of can subtly alter the radiation of vehicles that they travel in to make them invisible to the humans in the general vicinity.

I would argue that a "cloaked" vehicle that is "invisible" or "transparent" still has substance. You might not be able to see it, but you still can run into it. If the woman was egressing from an invisible vehicle, then that truck would have smashed into it.

Here, in the science fiction adventure "Star Trek – The Voyage Home" we have a vehicle or vessel that materializes in front of a startled ship's crew.

This reminds me of an "X files"

show where a genie appears. The episode is "Je Souhaite". She offers everyone three wishes. One of the people who obtained the

wishes wanted to be invisible. So he gets to be invisible, and promptly gets run over by a truck. You can watch the video [HERE](#) on the internet.

*A lot happens: A guy (Anson Stokes) finds a woman rolled up in a rug in a storage locker. His boss instantly loses his mouth. Anson then gets a boat in his driveway and *then* is found dead, invisible, having been hit by a truck. Cue a wonderful scene of Scully dusting an invisible corpse with lycopodium powder while grinning like an idiot.*

No, I do not think that she is egressing from an invisible vehicle.

Another example.

This is a video posted in China during the middle of the coronavirus outbreak. Video is apparently taken sometime in November prior to the first signs of the virus outbreak in December.

It shows a man entering the observed physical reality. Once he arrives he immediately “books it out” onto the sidewalk and merges in with the crowd. He appears to be Caucasian in a city that is 99.9% Asian.

What I am seeing (as far as the transport mechanism) is exactly what I was exposed to when I was in the Navy at NAS NASC Pensacola Florida.

Man appears from no where in China in November 2020.

The video posits many questions. And, it also implies some even worrisome situations.

Summary

There are multiple realities. There are individual bubbles in time that the realities can manifest. Individuals from one reality can enter into another reality by “sliding into it. This is accomplished in many ways.

We can occasionally see people crossing into our reality. Just as we can witness people egressing from our reality.

This lady has been filmed by a vehicle dash cam in Russia entering our reality through MWI egress via a road. Her attire is suggestive of time travel, and a “crude” MWI technology. As such, the destination coordinates can vary (as inferred from her clothing), and there might be some radiation leakage during egress (from the protective coat that she wears).

Take Aways

- The MWI exists. It is not some theory that needs to be debunked or “proven”.
- Travel within the MWI is possible using different techniques.
- MAJestic is aware of this technology and has been using it for decades.
- Time travel is a time vector variation of MWI switching.
- While I doubt the usefulness of time travel, apparently others consider it important.
- My operations used MWI slides at the behest of my extraterrestrial benefactors. My experiences were quite boring and would lull the reader into a peaceful slumber.

FAQ

Q: Is the lady in the foil jacket a time traveler?A: I do not know for certain. However, I have my suspicions. The need to conduct a MWI slide while on a major road is certainly suggestive of this. Why she would want to do it, in the first place, however is a mystery to me.

Q: Have you ever used a portable MWI event slide mechanism?A: No. I have read stories of numerous individuals who have claimed to have a portable device that does this. John Titor is one such individual. There is also the fellow who ended up carrying a mix tape of the Beatles back with him.

Q: Why did you have MWI-slide ability?

A: I personally think that the ability that I had to conduct MWI-slides was an accidental “side effect” of being implanted and entangled to an extraterrestrial species with this ability. They never sent me on any interesting missions or stuff like that. *They tended to constantly adjust the functioning of our reality relative to my personal experiences.* Which was *my* purpose in MAJestic. I was a “Dimensional Anchor”. It helped the development of human sentience be realized.

Q: Can you conduct autonomous MWI slides and “world line” travel on your own?A: No. I have no ability to do anything like that. Other than what ability that I have to control my intentions and dreams. For the most part, I gave away part of myself to take on this position. This species controls me and my abilities to a great deal of control. I conduct their wishes without thought.

MAJestic Related Posts – Training

These are posts and articles that revolve around how I was recruited for MAJestic and my training. Also discussed is the nature of secret programs. I really do not know why the organization was kept so secret. It really wasn't because of any kind of military concern, and the technologies were way too involved for any kind of information transfer. The only conclusion that I can come to is that we were obligated to maintain secrecy at the behalf of our extraterrestrial benefactors.

How to tell if someone is in MAJestic (Part One)

There are many fakers out there. I really do not know what their motivations are. Some might actually have some experience, I don't know. None of them seems to have any kind of background that even approaches the membership I know of. This is how you can sort out the truth from lies.

How to tell if someone is in MAJestic (Part Two)

In this second part, we go into details on how the United States safeguards secrets. We talk about the MJ-12 disclosure and a historical overview of MAJestic. We also discuss the various reasons and restrictions that MAJestic is operating from. It's an important read.

Top Secrets and Flying Pigs

Here I try to explain how the Special Access Program works, and described how the most secret elements of those programs are kept waived and unacknowledged. I discuss why, and use the example of a fictional “Flying Pigs Program”. To understand MAJestic, you need to read this.

The “Sales Pitch” Used to Ask Naval Aviators to Give Up Everything for MAJestic

This is a narrative on how I was offered the role within MAJestic. I was in training to be a Naval Aviator when I was called upon by the base commander. He asked me, and another AOCS, to join. This is how he convinced me.

Feducial Training of ELF-Based MWI Access

This is a small post about the training that we needed to learn into to enter into a transport mechanism for MWI access. You cannot access and switch world-lines without being able to access and “center” the implanted probes. This discusses this procedure and training.

MAJestic Mandated ELF-probe Implantation

This post goes into detail on how the first two “kits” of probes were implanted into my head. All of this procedure took place on the Naval base at the ELF substation. At the time, only myself and the other member of my “cell” aside from the Commander took part in this procedure.

My Very First MWI Portal Egress

This is a narrative of my very first experience in world-line travel. It happened immediately after I gave up flying as a Naval Aviator and joined the MAJestic organization. After training on feducials, and implantation, I joined a group of others and left our world-line.

First Egress Destination - EBP Implantation & Entanglement

This is the narrative of what transpired when I entered the Fixed Dimensional portal. I went to an extraterrestrial medical facility where a EBP was installed within my body. I discuss what happened and my first encounter.

Post EBP Reconstruction -Return To The Navy Barracks

This is my narrative on how I exited the dimensional portal and returned back to the Naval base. I discuss what it was like meeting my fellow classmates and how I was instructed to leave the Navy and become a civilian. This is how it is done and what I experienced.

After Implantation – Lost as an Autonomous Vagabond

This is my story of what happened after I joined MAJestic, and left the US Navy. I was fully actuated, but not yet trained in using my abilities. As such, I was a “loose cannon”, and existed in a very confusing state of reality. I was the real life Jason Bourne.

Rescue from the Wilderness – A Special Assignment

This particular post discusses how I found my way back to the Navy again, and began my “training”. I went into the desert to a Naval base located in the middle of the remote desert. At that time, I had no memory that I was part of a secretive military program, and thus the “special assignment” held little tangible meaning for me.

Probe Calibration and World-line Training (Part One)

Here is the story how the set of MAJestic probes, placed inside my skull, were calibrated. This took place after implantation, and involved calibration exercises at the Naval facility at China Lake in California. This is a two part post and discusses the facility and actions there.

Probe Calibration and World-line Training (Part Two)

This is the second portion of the two part post In this section we talk about how I was instructed in the operation of calibration of the probes and how I was provided with some limited knowledge in how to modify the programming. It wraps up with my exit from training.

Adventures in World-Line Travel

Here are a selection of stories and experiences that I had when I was involved in world-line travel as part of my MAJestic mission parameters. As such, my experiences gave me some insight into the nature of the universe and of our human species. I hope this is an enjoyable read.

MAJestic Mission Shut-down & Retirement

All programs must end. This is how members of MAJestic that have core kit #2 probes implanted are retired. As they all need to be retired in a specially equipped facility and subject to a life time of monitoring. We cover the entire process and what is involved.

The Ultimate Method to Make Your Computer Safe and Secure

The best way to make your computer secure and private is to have very strong encryption and use an obscure operating system that very few people know about. Here we look at 37 obscure computer operating systems.

What life is like inside the ADC Prison in Arkansas

This post discusses what life is like in a hard labor prison in Southern Arkansas. We discuss hoe squads, food, the hole, commissary, dress, fashion, homosexual culture, prison gangs, murders, relationships and other aspects of life when you are sentenced to "Hard Time".

What it was like for me to leave America for China.

This is my story on the final moments of my life in the USA. I had just completed my retirement sequence for MAJestic and I was released to enter the monitoring section of my retirement. I decided to get the tattered remains of my life together and move to China and this is what it was like for me to do so.

MAJestic Related Posts – Our Universe

These particular posts are concerned about the universe that we are all part of. Being entangled as I was, and involved in the crazy things that I was, I was given some insight. This insight wasn't anything super special. Rather it offered me perception along with advantage. Here, I try to impart some of that knowledge through discussion.

Enjoy.

The Secrets of the Universe

When people discover what my role was in MAJestic, one of the first things that they ask me is whether or not I can "tell them the secrets of the universe". Certainly, they argue, I must have learned something... Well, I did. Here's the first installment.

The Drake Equation as Viewed by MAJestic

Many people use the Drake Equation to figure out why the average person is not exposed to extraterrestrials. Yet, MAJestic members know the real reason. Here we review the variables within the equation relative to MAJestic understanding and discuss things relatively.

Our Galaxy as Presented to MAJestic

Here is a very general overview of the little that I know about our galaxy. It is a mixture of known and accepted science blended with what I was exposed to in MAJestic. Of course, what is presented is within the limits of what I understand, no more. So it is actually a rough outline.

Sirius is not the home of the Enlightened Extraterrestrials

There is a rather large number of “spiritualists” who are convinced that enlightened beings from the Sirius solar system have come to earth to teach and instruct us humans. I actually find it rather laughable. Here, I review what Sirius actually is and why no great enlightened beings live there.

The Alpha Centauri System

Here are my thoughts on the Alpha Centauri System. It is, as always, a mixture of conventional science and what I know through my relationship with MAJestic. Keep in mind, that I am a man with limits. It is but an overview, and what is presented might hold some surprises.

The Fuselage embedded within the rocks of Victoria Falls

There is evidence that there was an accident (of some sort) that damaged a vessel (of some type). Over the years it has become buried in silt, which later turned into stone. Here we study this issue.

The Hammer inside the Rock – The “London Hammer”

Here we have evidence of a shellfish dislodging apparatus or hand-tool that was abandoned millions of years ago. Here we study this artifice. We look at the manufacturing challenges in making such an object and study the environment in which it was lost.

The Hollow Moon

Why is the moon hollow? This is one of those uncomfortable facts that just doesn't jive up with the conventions of accepted scientific knowledge. Yet, every study has confirmed this to be the case. Here we study this issue in detail.

The Mystery of the Lapulapu Ridge

Deep down under the sea in the greatest depths of the Pacific ocean is a mobile underwater city. It's been operating there for many, many years. It has been leaving tracks and debris middens all over the place. Here, we look at this in some detail.

Mystery of the Baltic UFO

Sonar scans, and visual confirmation, indicates that a large disc shaped object skimmed the undersea world of the Baltic sea and crashed. Subsequent investigations were suppressed. Now, all that is available for study are a small pile of rocks. Let's look at this mystery shall we.

Mystery of the Bronze Bell found inside a block of coal.

A hand-bell made out of brass was discovered totally encased in a solid block of coal. What is so interesting about this bell is that it depicts a winged humanoid. The only thing is, the coal dates from a time long before birds, where only insects flew in the skies.

The Oil Lamp Discovered in a block of coal

Many things have been found encased within rock hard coal. One of which is a small “pot”. This is obviously the lower part of an oil lamp, common a few thousand years ago. The problem is what is it doing in millions of year old coal?

Did Extraterrestrials set up a colony in Pennsylvania?

Sounds really strange doesn't it? Well, here we talk about the possibility of a community of very “unique” red-skinned, horned giants, with firearms were actually a colony of extraterrestrials. It's a long stretch. Yet, we look at them from this prism, as unlikely as it is.

The Oxia Palus Facility.

Here we talk about a facility that I know a lot about. It is a MAJestic aligned facility on the surface of Mars in the Oxia Palus region. It is many things, and was initially a mining operation with a smelting and processing facility. Here we discuss this facility as an overview only.

Let's chat about Brown Dwarf solar systems

Up until a very few years ago, no one knew if Brown Dwarf stars existed. Now we know that they do indeed exist, and that they are everywhere. Most people are unaware of them, but they play an important role as these dwarf stars are the home of many an intelligent extraterrestrial.

NASA Manned Space Exploration - What happened?

When President killed the Apollo space program, and Jimmy Carter neutered NASA, everyone sat back, fat and content that money was not being wasted and that instead American infrastructure was being taken care of. Here is the real reason why Apollo and manned space died.

The Disclosure of the CARET Program at PACL

A full unapproved disclosure of a MAJestic related reverse engineering program was released to the public. It concerned the CARET program at PACL. It was quickly attacked and debunked. A music video was even generated as part of it. Here is the full documentation package.

Yes, We Do Live in a Multidimensional Universe

Here we discuss how world-line travel is possible. We look at the physics of the MWI and the mathematics involved. We also discuss an overview of Heaven, our universe and how our experiences within our reality are important. In our reality, everything is possible. It really is.

The True Nature of the Universe

This is a discussion on the true nature of the universe and how individual realities fit within its' scope. I consider this an important writing and it acts as a "bridge" between the various "schools of thought" on the nature of our universe. What is presented is for your consideration.

Why our Understanding of Reality is False

Here we discuss four paradoxes of the second law of thermodynamics and use this as a springboard to illustrate that it is impossible to understand our reality within the MWI using Newtonian limitations placed on us through observation.

Evolution of the first sentient life on Earth.

Humans are not the first intelligent life on earth. There were many others. Here we discuss one of the first species of intelligent life; the Cephalopods. They have existed for hundreds of millions of years, and now exist as octopi that inhabit the oceans around us. Let's talk about them.

Transport of an Extraterrestrial Modular Structure

In 2012 through 2014, a huge armada of skyscraper-sized modular components was tracked inbound to our solar system from deep space. They decelerated and landed on the moon. This is the story of how MAJestic scrambled to find out what was going on at this time.

The Frightening Possibility of Genetic Social Stratification

The primary mission requirements that I was involved in lay in assisting our benefactors in human sentience determination. The human race is moving towards a day of evolution and key to that point in time is the chosen sentience we select. It has frightening consequences.

The most common extraterrestrial species that interacts with Americans.

Here we discuss the grey extraterrestrial alien species. Contrary to the public narrative, there are numerous extraterrestrial species that regularly visit the Earth. In fact, they have all been doing so for many, many years.

The Mystery of the Dellschau Flying Contraptions

Here we discuss the mystery of a secret organization wholly devoted to enabling humans to fly. This organization was active years before the Wright brothers ever contemplated manned air flight. The members eventually died off, and all that remains are the records of their adventures.

MAJestic Related Posts – World-Line Travel

These posts are related to “reality slides”. Other more common terms are “world-line travel”, or the MWI. What people fail to grasp is that when a person has the ability to slide into a different reality (pass into a different world-line), they are able to “touch” Heaven to some extent. Here are posts that cover this topic.

Some True Stories of Cat Heaven

Being in MAJestic taught me many things. One of which was an intimate understanding of Heaven and other “spiritual” things relative to quanta entanglements. Here I discuss what it is like to have a beloved animal (cat) dies and what actually happens to them and why.

Consciousness Migration for World-Line Travel

This post discusses how Heaven was formed, and what reality actually is. It discusses how world-lines function and just what MWI (Many Worlds Interpretation) is. This little post is the foundation of all aspects of my particular involvement with MAJestic. As such, it is important reading material.

What I miss from my original world-line

This is a little micro-post of some of the things that I miss from my time “before” I got involved with MAJestic and all that MWI “stuff”. It really makes no sense to anyone in this reality, but to me, it’s pretty important stuff. It’s simply a compilation of some of the quirks of this reality that are different to me.

Graphic on how world-line travel is possible

Many people are intrigued about world-line travel. They argue that the MWI is too difficult to understand, but thanks to Hollywood, the imagined adventures in alternative world-lines are quite appealing. Here we set forth how the MWI works and how it can be leveraged for world-line travel.

An Observed World-Line Switch - The Aluminum Foil Lady

Here is a report of a person entering this “world-line”. She appears on a busy road and is filmed by an automobile dash cam in the process. She is wearing a protective thermal “space blanket” material coat, and is apparently dressed like a nun. We discuss her and the utility of roads in this context.

World-Line Travel Using Vehicles - Some Examples

There is ample evidence that people are entering and leaving our reality using various methods and techniques. One of which consists of vehicles with heavy devices that enable world-line cross-over events. Here we discuss these events and look at numerous examples.

A World-Line where the Beatles Never Broke Up

Here is a story about a man who ended up getting hurt and was rescued by someone from an alternative world-line. He tell his story and brings back a Beatles mix tape as proof. We discuss his adventure relative to MWI slides and look at commonality of descriptions.

World-Line Creation and Stability Considerations

Let's talk a little bit about what a world-line is, how it is accessed, and why it sometimes needs to be accessed. This isn't full of all kinds of stories about visiting different world-lines, but rather why certain advanced species use the MWI to control the sentence evolution of humans.

ProfessorPhate as an Example of MWI Crossover

In 1999 an individual going by the name "Professorphate" produced a narrative claiming that he was from another world-line. In his narrative he talked about this other world-line and the circumstances that brought him to our apparent reality. Presented for curiosity only.

The "Passage of Time" is actually Observed MWI World-line Slides. Here we discuss what time actually is, and the differences between a dimensional egress portal and a MWI slide. We also use examples, two to be exact, where people have entered and left our reality using a 7th dimensional transport. We discuss how this works and why.

What is the Color of Chartreuse; is it Red or Green?

Many people who have lived through the 1980's, such as myself, clearly remember the color to be a deep red like color. However, our current reality describes this color as a yellow green. This confusion is known as a Alter-vús, and this post describes what is actually going on.

Mandela Effect - A System of Soul Management

Here we look at an interesting mystery that is occasionally observed. It is known as the Mandela effect. Essentially it is a situation whereas our memories do not match up with the reality. Here, we look at it in terms of MAJestic and the management and cultivation of soul growth.

What the difference is between Soul and Consciousness

To understand how our reality exists and what Heaven is like you need to understand the basics of just what we are. Here is one such fundamental understanding. That is the difference between souls and consciousness. For while we think, reason and experience, it is our consciousness that does so for our soul.

John Titor Related Posts

Another person, collectively known by the identity of "John Titor" claimed to utilize world-line (MWI egress) travel to collect artifacts from the past. He is an interesting subject to discuss. Here we have multiple posts in this regard.

They are;

John Titor and World-Line Travel as Time-Travel (Part 1)

This is an introduction to John Titor and his claim that he utilized world-line travel to go into apparent past(s) to acquire equipment. He burst onto the internet in 1998 and left in 2001. He left a trail of mysteries in his wake. In review, knowing what we know today, his story rings true.

John Titor and World-Line Travel as Time-Travel (Part 2)

Here we look at the John Titor narrative that describes what happened in the United States that precipitated civil war, and World War II. We look at it from a point of view twenty years later, and to the surprise of many, he accurately predicted many things that we take for granted now.

John Titor and Details on his Time-Machine (Part 3)

Here we spend some time going into the disclosed details of how the Time Machine actually works. We look at the manual and come up with the conclusion that he actually was hiding something or some elements of the machine. Let's look at this issue.

John Titor and our Reactions to his Disclosure (Part 4)

Strange as it might seem, once the news of John Titor hit the internet, many people had all sorts of reactions to it. Here we review the reactions. They, in themselves, tell us a lot about ourselves, society and about the nature of the universe. Here we look at the reactions.

John Titor - Full Text of his Transcripts (Part 5)

For over a decade the actual transcripts of what John Titor said and his discussions on chat boards were obliterated. The only thing that you could find were websites that said he was a hoax. That all changed when enthusiasts collected and posted his writings. Here are the earliest transcripts.

John Titor – Full Text of his Transcripts (Part 6)

There are all sorts of fragments of the John Titor discussions floating in bits and pieces throughout the Internet. This post collects some of the more obscure bits that did not make it into part 5 of the text. These tidbits are interesting but also irritating as the attacks on the narrative are relentless.

John Titor – Full Text of his Transcripts (Part 7)

This is the final discourse from John Titor to the rest of the folks on the BBS “Time Travel” board. He answers questions and responds to requests. He also clarifies things. Of course, the sniping and harping, as irritating as it is, continues unabated. It’s the final posting of this discussion.

John Titor – Full Text of his TTI Board Transcripts (Part 8)

Here is a secondary source for discussions involving John Titor. He subscribed to numerous time travel BBS forums, and this one; TTI is often overlooked. Here, we look at some of his statements on the board. His dialog on this board is very interesting and contains uncommon narratives.
